Funds for Rehabilitation

CANADA'S FINANCIAL CONTRIBUTION to the work of the United Nations Relief and Rehabilitation Administration for this year will be \$7 million dollars. This was announced yesterday by Mr. J. L. B. J. Minister of Finance, who explained that the contribution is being made on the basis of one per cent of the national income for the time being. The United Nations Relief and Rehabilitation Administration reported that the national income for that period was \$745 million dollars, and that the sum of \$7 million was agreed upon as the Dominion share in the essential work of rehabilitation. The amount of the contribution of the United States was determined in the same manner, on the basis of the national income of that country.

Great Service To Humanity

Great service has gone into arrangements for the organization of relief units and specialists in rehabilitation, which follow the United Nations Relief and Rehabilitation Administration. After giving much careful consideration to the problems with which they have to deal, officials of the U.N.R.R.A. agree that food, clothing and medical care would be the most essential needs of the liberated people. Next to these are the important medical, dental, hospital and other services which would be most essential to the return to normal living conditions. With these concerns in mind, the members of the Administration have been at work on a plan of action which will be carried out in the near future, and will continue to do so for many years to come.

Need For Food in Many Lands

There is the further demand for food in many of the countries of the world. Much has been done to prepare for the re-establishment of the normal food supply, but the need for food is still acute in many of the countries in the world. The United Nations Relief and Rehabilitation Administration has been made to plan the distribution of food and other essential supplies in every part of the world. In the United States, the need for food is still acute in many of the countries in the world. It has been proved time and again that newspaper boys are the most valuable members of the newspaper family.

Major General James C. H. Adams, general of the U.S. Army, stated in a recent article: "An army doctor in Italy, as a result of his observation in the field, has said that the best officers are the newspaper boys. They are the only ones who are not afraid of the enemy. They are the only ones who are not afraid of the enemy. They are the only ones who are not afraid of the enemy. They are the only ones who are not afraid of the enemy."

It is the General's contention that the best officer material is coming from the ranks of young men who are newspaper boys. They are the only ones who are not afraid of the enemy. They are the only ones who are not afraid of the enemy. They are the only ones who are not afraid of the enemy. They are the only ones who are not afraid of the enemy.

Now comes a report from the U.S. that newspaper boys are the most valuable members of the newspaper family. THE WEATHER

FINE CUT CIGARETTE TOBACCO

The Weather

THERE IS A WELL-KNOWN SAYING to the effect that everyone talks about the weather but no one does anything about it. It is true that no meteorologist has ever been discovered for neglecting the weather, and it remains a constant hazard to the undertakings of men and animals. The people of Western Canada have long been the recipients of the weather's attention in the production of crops and they know that in many instances, it is the weather that determines whether we are to have good or bad times. Many farmers have seen their crops, the results of months of labor, destroyed in a few minutes by the elements. The people of the West also know that in many instances, the weather has been the cause of the loss of life and property. It is in many ways the weather that determines whether we are to have good or bad times.

Has Effect On World Events

The weather can change the course of events for nations as well as for individuals. It is an important consideration in the carrying out of military, political, and commercial operations. The weather has been a factor in the history of the world. It has been the cause of the loss of life and property. It is in many ways the weather that determines whether we are to have good or bad times.

Ferocious An Aid To Flying

NEW YORK.—The government of Gen. Hideki Tojo resigned collectively on the night of the 18th. The resignation was accepted by the Emperor. The cabinet was the first to resign since the formation of the Tojo cabinet in October, 1941. The resignation was the result of the failure of the Japanese forces in the Philippines and the loss of the island of Corregidor.

Full Commercial Course, New York

ferred—Forward Step by School Board

The Vermilion teachers association board of trustees recently engaged Miss Lucy Milne to take charge of the commercial route in the Vermilion high school. Miss Milne comes highly recommended from Detroit where she taught for

the past our graduates who have senior certificates in all the commercial subjects, this will enable Vermilion to offer all the commercial subjects given in the larger centres. It will also enable more academic subjects to be offered.

A student entering grade ten will be able to choose between an academic program or a commercial program. If he selects the former he will take English Social Studies Physical Science Mathematics Physics History French Latin Biology Government and Guidance Psychology and he should wish to start his commercial course he will take English Social Studies Physical Science

The progressive move on the part of the school board will enable the students to obtain the training in Ver million that they were formerly obliged to go to Edmonton for.

MARWAYNE REGION
SCENE OF OIL SEARCH

Drilling for oil started Monday in the number one well of a new project, three miles west of Marwayne, in the Vermilion River valley.

General Petroleum Ltd of Calgary

and Vermilion have completed surveys in the area and men and equipment from the Vermilion field are now on location near Marwayne. Keen interest is being shown in the oil drilling project, and hopes are high that oil will be found. Natural gas at least is assured, according to experts.

According to a report from a former man, Pearl Harbor, "every man who came from it, regardless of race, is alive today." Why? Because they were given serum before being shot. White blood serum was a major factor in saving their lives. I know, and in Africa, Canadian blood serum because of its scientific packaging ranks high in usefulness despite the excessive cold and intense heat. Our armies are scattered all over the world, we need supplies of blood serum from the Pacific to the Mediterranean. In any and in every place where it may be needed. The greatest battles are still to come. Against their coming the Red Cross is working to build up a great serum bank. Knowing that, surely it can't be

about health or operations or diseases. After questioning and the assurance that all is well your doctor is fitted over to a trained nurse, placed rectally on a bed, a turn of the tourniquet, a prick of the needle and your part of blood is starting on its way.

With five per cent of the blood lost, most have no reaction whatever. Even those few have only a few minutes of weakness which is quickly dispelled by the coffee and biscuits given them.

The atmosphere of the clinics is friendly and anything but forbidding. The rooms are crowded with men and women from all walks of life bound together in the common desire to give to the world.

When the doctor has finished his turn he is called. And then, after enjoying coffee and biscuits as a pick-me-up, there is a friendly rivalry among the doctors as to who has given the most donations. Some have brought a salary, others have given

Many have taken up as groups factory workers, defense workers, police and fire departments. The men to khaki and in blue came to the hospital. Now come the women workers, the department store girls, the women of leisure their donations the only direct and personal contribution they can make.

The Canadian Red Cross needs 12,000 donations a week. Supply that is easy to get from millions of Canadians who want to be in it too, who must be willing to shed their blood painlessly and safely for their country, and when by their very personal offering become a medium for saving a life on some far-flung scene of battle.

The phenomenon of the Navy and its members' tax status is a subject that has been widely discussed in the past. The Navy League of the United States is the largest of the Navy's many shore and station organizations.

One of the League's most widely appreciated programs is the "Navy League" on board ships, which is a program of moral education for the young men in the Navy. The program is based on the principle that the Navy is a great institution, and that the young men in the Navy should be taught to respect and honor it.

The Navy League of the United States is a non-profit organization that is dedicated to the promotion of the Navy and its members. It is a member of the United States Navy League of the United States, and it is a member of the United States Navy League of the United States.

War Criminals Will Have To Pay For Crimes

LONDON.—Sir Cecil Hurst, vice-president of the permanent court of international justice and chairman of the United Nations commission for the investigation of war crimes, made it plain that war criminals will have little chance of escaping justice by taking refuge in neutral countries.

Oil Controller Praises Vermilion Oil Field

[illegible]

1935 barrels had been produced in the first seven months of this year.

"We are sure than pleased with the results in the Vermilion area," he said. "While the wells are not large, they are much less expensive to drill than in many other parts of Alberta."

The Vermilion oil came at a most opportune time as it would provide

several bullet wounds in both arms and in his rate and also compound fracture of both legs below the knee. As a result of the shock of the multiple wounds he has become dangerously ill. His perilous condition is anxiously awaited by his family and many friends in Vermilion.

A later wire received by the Times

On Thursday morning stated that Pin Heater is now listed as seriously wounded — formerly reported dangerously wounded — and is prostrate.

The regular weekly meeting of the Board of Trade will be held Wednesday next Sept. 29 at 12:15 noon at George's Lower Dock. Business men, farmers and visitors are invited to attend.

THE INCREASED DEMAND RESULTED FROM:

MORE UNDERWEAR: but still not enough!

The reason is that a great deal has been done to produce cloth for the armed forces and munitions and to the United Nations through years and months to meet the increased demands of the world.

WHAT HAS BEEN DONE ABOUT IT

First of all the Board found out the kind and quantity of garments Canadian children must have. This showed that the public is longing for more than it actually needs.

Each manufacturer was told to produce an increased number of garments.

Manufacturers not previously making children's underwear were induced to go into production.

The Canadian North

BRINGING THE COURSE OF CANADA'S GROWTH from a group of small settlements on the banks of the St. Lawrence River, to a mighty nation stretching from the Atlantic to the Pacific Ocean, many frontiers have been pushed back and many vast stretches of land have been opened up. Not until the Western provinces were settled, was there opportunity for those who were looking for new land and new experiences. When no more unknown territory lay in the direction, the only remaining frontier was to the North. There has been development in the Canadian North ever since the days of the fur traders, but it is only recently that public interest has been fully aroused to the great potentialities of this region, which comprises two-thirds of the total area of the Dominion.

War Awakened New Interest

The Northwest Territories, the Yukon, the Hudson's Bay district and New Quebec, formerly called Ungava, make up the territory known as the Canadian North. It covers about 1,600,000 square miles and has a population of 17,000, 3,000 of whom live in the Yukon. The outbreak of war with Japan, and the consequent threat to this country through the Alaskan Highway and the Canadian Pacific Railway, has been the impetus behind the development of the Canadian North. The Canadian people have been awakened to the importance of this region, and the fact that the climate, generally considered a barrier to settlement, has been proven in recent years to be no more of a barrier, and that in many places, in fact, the climate is ideal for the type of settlement which is being developed in this northern region.

Much Activity Is Expected

It is expected that there will be great activity in the Canadian North in the years following the war. Present sources of minerals are being rapidly depleted and plans are already under way for developing the rich mineral deposits in this region. The Canadian people have demonstrated the abundance of oil in that locality and there is also the prospect of securing large supplies of oil from the Alaskan fields and the Canadian North. It is expected that there will be a large increase in the number of people settling in the Canadian North in the years following the war, and that the Canadian North will become a more important part of the Canadian economy.

The Royal Navy

The Royal Navy is the largest and most powerful navy in the world. It is the only navy which has a fleet of ships which are capable of operating in all parts of the world. The Royal Navy has a long and distinguished history, and it has played a major role in the development of the British Empire. The Royal Navy is a symbol of British power and prestige, and it is a source of pride for the British people.

Good News: Head Colds

Head colds are a common ailment, but they can be prevented. The best way to prevent a head cold is to keep your nose clean. You should blow your nose frequently, and you should use a nasal spray to keep your nasal passages clear. You should also avoid colds and flu, and you should get plenty of rest and exercise.

WAGE WAR ON WASTE!

Waste is a major problem in Canada, and it is a waste of money. The government is trying to reduce waste, and it is asking citizens to do the same. Citizens should be careful not to waste food, and they should be careful not to waste paper. They should also be careful not to waste water, and they should be careful not to waste energy.

WHAT'S WRONG WITH THE WORLD?

Dr. Lewis Wilson.

What's wrong with the world? That question was discussed many times in the correspondence columns of one of the leading Canadian newspapers during the "war years" when there was little news and much time to think about the world. Letters were published from people in all parts of the world, and each correspondent would write a few lines about the state of the world as they saw it. It was a most interesting and useful exercise. It was a most interesting and useful exercise.

The 17th across the Atlantic cost just \$10 for Frank O'Connell, 37, of Hamilton, Ont. That's the first time that a Canadian flying in Britain in a Canada bound vessel.

Some temporary prisoners who in the past have had to provide their own water and dry their clothes in the future will have them supplied by the government.

A Rover dispatch says the German army has taken their prisoners of war from the front lines to the rear and now have 100,000 workers manufacturing it in 70 different factories.

Christmas Cakes

Ingredients Are All Here Ready For The Baking

The cake for this year's Christmas dinner will be the old-fashioned kind that only one can make.

Respecting that Christmas carolists are in to get good supply this year, the Prime Minister has the good word to cook to get the mixing.

Right away it's worth the time to see how the cake is baked.

Remembered halfway around the world is sending Christmas cake to the Americas to the hearts of every one.

Relatives are arriving daily from the United States.

W. B. C. O'Brien and daughter, Canada's first woman to be knighted, are in the United States from Spain.

More Canadian Killed By Tuberculosis Than By War

Dr. G. C. British director of tuberculosis prevention for Ontario said that more Canadians have been killed by tuberculosis during the last year than have been killed by the enemy in all theatre of war.

He said in the personal and epidemic, one has reason to be optimistic.

The mortality from tuberculosis in 1945 was half the level of the previous year and the level of infection was down in 1946.

Eighty percent of heart areas are being treated with a hot material which is used to seal the arteries.

On Earth Peace to Men of Good Will

With the advent of Christmas this year, these words hold for us an added significance: "Peace to men of good will"

over. We are fighting that the spirit of Christmas shall endure. And we rejoice that this Christmas brings with it the definite promise of freedom for all mankind.

INCOME TAX DEDUCTIONS FOR PARENTS OF STUDENT CHILDREN

Parents of student children can now secure an income tax deduction of 50 per cent of the amount contributed (but not exceeding \$1000) in the support of a child under 21 years of age (including a nurse at a public or privately-owned private hospital).

This announcement is made by Miss Patsy Munro, President of the Canadian Nurses Association, following the passing of a clause in the Bill on national service at the last session of the House of Commons.

This income tax deduction is applicable also to the father or brother of a dependent child under 21 residing at such a hospital, added Miss Munro.

This provision for income tax deduction will meet with approval among the part of many parents who have been concerned about the lack of recognition of this type of student training. It is also strongly approved by directors of Schools of Nursing who have encountered this objection from parents of prospective students.

It is pointed out that a larger exemption is not allowed because major expenses of student nursing are covered by the hospitals at which they receive training.

On the subject of income tax deductions for parents of student nurses, Mr. C. F. Miller, Deputy Minister of National Revenue (Taxation) stated: "We are or should be very conscious of the student nurse's position and of the necessarily intense training which prevents consideration being given to student nurses."

"Perhaps nurses above all others have a place that should receive public recognition, and parents should be encouraged to send their children in the line of work which is so really required and is of such great human value."

"Not only the medical profession but others are conscious of their position and their high educational and other over-achieving requirements as a result and the nursing profession."

Allied Leaders May Meet Again in Near Future

LONDON.—Diplomatic problems stemming from swift action taken by Prime Minister Churchill and President Roosevelt and possibly Marshal Stalin—leader of the Russian war effort—may be solved in the near future.

At a meeting of the settlement of the immediate problems as the organization of apparently divergent Allied views in Europe and the meeting for settling them for the treatment of Germany after the war. In view of the need for improving Anglo-American relations and since President Roosevelt will not be in the country for his fourth term until June 20, the question in informed quarters favored a meeting before the end of the year.

Although diplomatic questions prevailed on the whereabouts of both Mr. Roosevelt and Mr. Churchill, considerable progress was made in the movement.

Security also prevented meeting of dates and places for such a conference. Among the possibilities were Great Britain, the United States, and the United States.

The British press, however, suggested that the meeting should be held in Great Britain. Weeks ago it had been a campaign to bring the Big Three together here. It was the thought of Churchill that the meeting should be held in London.

Problems facing the Big Three for immediate consideration included: 1. Germany—formal and informal. 2. Japan—formal and informal. 3. The United States—formal and informal. 4. The United States—formal and informal.

POST-WAR PLANS

Washington—Allied officials in London are drawing up recommendations for long-range control of Germany.

This was learned today from the fact that the question of economic treatment, which caused a cabinet row in Washington this day, is being considered.

The agreement signed by representatives of the European advisory committee on military occupation plans is still being reviewed in the various capitals. There is no possibility, however, that it will be approved because British, Russian and the United States sanctioned the plan by which it was being worked.

This leaves the committee to go on to plan for final elimination of the Nazis, demilitarization of Germany, and control to make it impossible for Berlin to hold another war machine.

The only open question on the occupation plan is France, which did not take part in writing the agreement because she was not made a member of the committee until it was completed.

However, Moscow reports indicate that the Soviet Union was not in the discussion with Premier Stalin on plans for Germany.

Predicts A New Government For Polish People

MOSCOW.—Jedynak Burt, Polish member of the Provisional Government of Poland, predicted that the formation of a provisional government of Poland depended on satisfying the food hunger of 10,000,000 Polish people.

The Soviet government has sponsored the development of Poland's council with its seat at Lublin, Poland, and recent Moscow dispatches have indicated that a move to make it the provisional government of Poland was under way. Such a development probably would end all claims of an agreement between Lublin and the Polish government in London.

MACDONALD'S

BRIER

Continues Standard Smoke

May Require Longer Now To Beat Germany

WASHINGTON—Military strategists now are tentatively adding three to six months to their estimate of date for victory in Europe.

There is still hope in high places that the Allied armies will be able to turn the United States' reverse in the western front into an early and decisive victory. But at the moment it is a gray and waning hope.

Along with this sober estimate of the fighting has come recognition that at least part of the German success was due to over-optimism

negation of Hoo, Lichtenberg McCauley. He was formerly minister of the United States Consulate in London, and was chairman of the United States Council on Europe. The Administration council meeting in Montreal.

MURMANK ROSS

From U.S. Agent in Defense of Russia Against German Invasion

CALGARY The vast quantities of British and American war supplies stored in Russia's northern port of Murmansk were a vital factor in the epic defense of the Soviet Union against the German invasion.

through the Allied high command in London. The British and the Europeans war would be won last fall, later they set the date at the end of the year. In the spring. Now they talk of next fall or winter.

If it actually turns out into late next year to beat the Germans the day for victory over Japan will have to be pushed forward also. The Pacific as well as in Europe, much of what will happen depends on the progress in Europe.

There is for instance the question of whether and when the first army will be sent to fight against the Germans in the Polish front.

Fisher, C.E. A.D.C. of the Royal Navy, in an interview here. For two years Admiral Fisher was stationed at Murmansk and watched the Soviet Navy's assault from a base through a port bound for the Russian battlefronts.

"It was just before and during the battle of Stalingrad," said Admiral Fisher, "as the Soviet Navy was landed from the convoys and rushed away by train to the front."

The continuous flow of this equipment and supplies was an amazing sight since the Germans are heavily engaged in the west.

However, the assault from the Baltic through to Berlin might also be the war somewhat, but in view of what has happened in the west there now is no reason to believe that those results would be either certainly or quickly achieved.

Admiral Fisher said that the Germans may be expected to resist and strike back in the east with the same ferocity they have shown against the western Allies.

OBITUARY

MATTHEW MARION WITHERS
Many friends learned with regret of the death of Mr. Matthew Marion Wither, who passed away at the family home on Tuesday, January 29, 1945, at the age of 70 years.

Mr. Wither was born in the town of Vermilion, Alberta, on January 1, 1875. He was the son of the late John Wither and Mary Ann Wither.

He was educated in the public schools of his native town and later attended the University of Alberta, where he received a B.A. degree in 1900.

Mr. Wither was a member of the Methodist Church and was active in its work. He was also a member of the Vermilion Improvement Society.

He was a successful businessman and was the owner of the Wither Bros. Hardware Store in Vermilion. He was also a member of the Vermilion Board of Trade.

Mr. Wither was a kind and generous man who was loved by all who knew him. He is survived by his wife, Mrs. Marion Wither, and by two sons, Mr. and Mrs. John Wither and Mr. and Mrs. William Wither.

Funeral services will be held at the Methodist Church in Vermilion on Thursday, February 1, 1945, at 10 o'clock a.m. The Rev. J. H. Brown will officiate.

Interment will be in the cemetery at Vermilion. Friends are invited to attend the funeral.

There will be a reception at the home of Mrs. Marion Wither after the funeral. The home is at 1001 10th Street, Vermilion.

Mr. Wither was a member of the Vermilion Board of Trade and was also a member of the Vermilion Chamber of Commerce.

As a result, the chief ally of Italy's Chamberlain, Mr. Roosevelt, has been broken and the latter and adviser to Mr. Roosevelt.

It is claimed that the views expressed by Mr. Hopkins leave no doubt that Mr. Roosevelt will veto any proposals for the establishment in Europe of what is called "international governments of the left" or of the "right."

This veto will be extended to apply to the present layout of the Lublin committee in Poland and also to that

The president about the nature of the governments in Bulgaria, Rumania and Yugoslavia.

Mr. Roosevelt, it is said in London, will also express dissatisfaction at the present state of affairs in Italy and Greece.

President Roosevelt's trump card in these negotiations will be the large amount of aid which he promised the Soviet Union and other Allies for the reconstruction period.

These estimates were bolstered by word from Moscow that almost the entire rural population and more than 80 per cent of the urban dwellers in the bare scrap of east Prussia which still remained in German hands pulled in to the area before the third army advance cut off east Prussia entirely from the rest of Germany was impossible to estimate accurately, but before the war 2,250,000 persons lived in the area.

Restrictions In India Are Being

Fought By Some Editors
CALAUTTA Denunciation of restrictions on the Indian press and praise for Indian editors who fought them were made at the opening conference of the Indian news paper editors in Calcutta.

"If we succeed in an attempt to make the press of India free as is the press of Britain and the United States, we shall have taken a very great step towards the achievement of the aims of the Indian independence movement," said a representative of the press.

Hudson Bay News

The War Has Altered Attention To The Northern Port.

A revival of interest in the development of the Hudson Bay route to Europe comes with the prospect of the end of the war with Germany. The war has established Hudson Bay as a stage in the air route to Europe, and the possibility also in the northern seaway.

Charges of Canada which may find their way for the rehabilitation of war-torn Europe. The route is a seaway, and wheat will perhaps continue to go to Great Britain in the years to come. If nothing is done deliberately to stop this not-unprofitable route from being developed. But it is clear that there are other possibilities for the Hudson Bay route.

Newfoundland is, of course, a great exporter of fish, but it must import many other essential foods. Wheat, for example, is a natural product of the Hudson Bay route. In addition, Newfoundland might be glad to take such duty products as milk and eggs which are coming larger and larger quantities.

While perhaps many Newfoundlanders have not been brought to Canada, they have been able to find themselves in Newfoundland. They have been able to find themselves in Newfoundland. They have been able to find themselves in Newfoundland.

Onion Stocks

Supplies On Hand About Double Normal Quantity

The importations of onions will be placed under specific import permit handled by the Wartime Food Corporation, the Prices and Trade Board at Ottawa said.

The order, effective January 21, was made because the 1944 Canadian onion crop was still unusually large and the stockpile of onions in the country is still unusually large.

...former District Officer in
Virginia.

PROMOTED

Cpl. Alice Jenny Hawkins, Winneg-
was recently promoted to the
rank of sergeant with the C.W.A.C.

Winnipeg, where she is now stationed. Sgt. Hawkins was born at Appleton, Wis., but was employed as a typist in Regina prior to her enlistment. Her father, George Hawkins, now resides in Winnipeg.

FROM STANDING--
Pfc. Jessie Buchanan, Forest, Ont.

... stood highest of 23 graduates of the 21st Cistric's Course held at No. 3 C.W.A.C. (B) T.C. Kitchener, Ont. Trades School recently. Pte. Foreen Hopley, Brandon, Man., and Pte. Dorothy McLean, Calgary, ranked second and third respectively. Other successful candidates on the course included: Col. Stella Dwyer, M.C.M.C.

"Wrell" signed the wife, "only

One of the first Saskatchewan girls to join the Canadian Women's Army Corps and probably one of the first C.W.A.C.s to marry an American serviceman is the record of Pte. Blanche Woltingham, of Regina. Joining the C.W.A.C. in October, 1941, Blanche was posted to Washington U.S.A. in June of the following year. While

where she met and married Capt. Robert Northingham, a Marine Officer from Warsaw, Indiana, who has since been action in Hawaii and most recently in the invasion of the Philippines. After her husband went overseas, Blanche was posted back to Legation where she is now employed as a clerk with the Ordnance Corps.

Since joining the C.W.A.C. she has traveled over most of the United States and a good part of Canada besides seeing and meeting many interesting people, among them Prime Minister Winston Churchill and the Earl of Athlone.

least. But thanks to GI equipment supplemented by Red Cross donations they are dressed for it. "Woolies," husky four-ply, snug looking sweaters that add at least an inch to the waist line come first. Then a turtle neck sweater, a button to the neck neck sweater, and lopping them the regular issue battle dress. Four pairs

of heavy woolen socks under healthy leather rubber boots are a "must." By this time the "slimmest" "WAC" presents a definitely sturdy figure. After knitted Balmain helmets under the regulation hats (shape *down*) and wooden gloves under reinforced leather mitts they don the last item: a head-to-thigh sheepskin lined wind-

proof rest, with a roller that completely obviates the head. Thus protected the girls clamber into open trucks which transport them to the scene of duty and Mother proceeds to relax. Daughter is wearing her "woolies" at last!

Figures Show That The Cost Of War Is

BATTLEVIEW ECHOES

March came in like a lion with cold windy weather and a lot of snow-drift. The roads are very bad and the snow is particularly hard for little children who have to drive to school. Mr. Harry Brown has gone to the hospital for a few days in this hospital. Mr. and Mrs. Walter Alexander are in the hospital where the nurse is in the hospital.

Again THE RED CROSS ASKS YOUR HELP TO HEAL A WAR-TORN WORLD GIVE!

Wherever the great destroyer, War, has passed, pain, suffering and sorrow follow in its wake. Young men are wounded in battle, or in hospitals are maimed by sickness or wounds. Little children, mothers, aged people are homeless, hungry, cold. In every theatre of war, whole cities lie in ruins. Millions are suffering the pangs of famine, starvation and death.

So the Red Cross will continue to reach out a helping hand. It must have W. P. Fisk, Campaign Mgr. Vermilion. Phone 121

What every housewife should know...
about **SUGAR for CANNING**
For tasty, nourishing and economical winter desserts, most Canadian housewives will agree to those preserving this year... jam, jellies and all kinds of fresh fruits. Sugar is still very scarce. We must continue to conserve our supplies. This year, the allowance for home canning will be the same as in 1944—ten pounds per person. Be sure to use your ration stamps sparingly.

HOW TO GET SUGAR FOR CANNING
Instead of special home canning sugar coupons, housewives preserve coupons in return for the B. & N. sugar made available for the purchase of sugar for canning. These coupons are good for half a pound of sugar each or the actual value in commercial preserves, but they are the same as any of your preserve coupons. You may use any other valid preserve coupons to purchase sugar, also at half a pound each. No exchange is necessary. Your preserve will accept any valid preserve coupons when you purchase sugar for canning. There are now only two kinds of coupons for sugar. The regular preserve coupon, good for one pound of sugar, and the preserve coupon, worth half a pound of sugar.

SUGAR FOR CANNING COUPON CALENDAR

WE ONLY AS REQUIRED
The housewife preserve coupon for sugar for canning is valid until the end of the month of April. It is not valid for use in commercial preserves, but it is valid for use in home canning. It will be given plenty of notice of its expiry date.

RATION ADMINISTRATION

GUARD YOUR RATION BOOK
If you lose your ration book, the entire preserve coupon will be voided. It is not valid for use in commercial preserves, but it is valid for use in home canning. It will be given plenty of notice of its expiry date.

Little Strokes Fell Great Oaks

These other trees the men must have lost the trunk, but the mighty oak comes crashing down on earth. Your purchase of Victory Bonds, though it may seem, when added to those bought by the thousands of other Canadians, will roll up the vast total required to finish the war and begin the job of reconstruction.

No one must think his task. Only with the fullest effort of each individual is the new high objective for Canada's Eighth Victory Loan reached.

Record T.C.A. Month

WINNIPEG — Trans-Canada Air Lines' passenger traffic revenue in March reached an all-time high, according to W. J. Doherty, traffic manager, who reports a 21 per cent increase in passenger carried so compared with the same month last year. The substantial increase is largely accounted for by the company's recently introduced daily transcontinental flight, as well as by the greater availability of passenger accommodations on certain T.C.A. routes.

OTTAWA, Canada.

Dated at Ottawa, Ontario, on Friday, April 20th, 1945. Commence date, Monday, April 23rd. Commence date, Monday, April 23rd. Commence date, Monday, April 23rd.

WILDERNESS WIVES

LAC VICTOR. Several men are leaving from his office today.

Carl Gustafson from Orono, Ontario, Calgary, is visiting his children at the Washington home for two weeks. He reports Mrs. Gustafson is very well. She is now working on the telephone switchboard at the home.

In a recent letter from Mrs. Gustafson from her home in the West, she had had and had a good deal of trouble with the telephone switchboard. She is now working on the telephone switchboard at the home.

The writer and family visited a short while at the home of Mr. and Mrs. J. Wilson on Friday evening. They were taken care of by Mr. and Mrs. J. Wilson. They were taken care of by Mr. and Mrs. J. Wilson. They were taken care of by Mr. and Mrs. J. Wilson.

On Friday April 27th Mr. and Mrs. J. Wilson of Atholville (district) are arriving at the home.

We are sorry to lose the best friend from our school. They are moving to Medicine Hat to join their family. Mr. and Mrs. J. Wilson, Howard and Don are also going to the same province. We wish all them the very best of luck in their new home.

V-E Day Cuts Few Controls

Material and manpower will be in short supply in return to civilian production after the war in Europe, said Donald Gordon, Prime Minister, recently.

Mr. Gordon warned that shortages in some food and civilian commodities in Canada, however, her command in the Pacific war and in supplies to liberated Europe.

Steel for civilians will be in short supply after the defeat of Germany and relaxation of restrictions on use of most of the steel will permit production of many household items needed for home building, the chairman said.

Cleanup operations were probably hindered some of the wonderful work of V-E day but there was a great deal of clean up work done and few days and three trucks worked steadily all day long, hauling away the debris and garbage. Those in charge of cleaning the project are working of great interest and the effort will probably be carried out one or more times each year.

Monday night, May 15th, is the date of the Social to be held at the United Church, at which Miss Joyce Davis, chairman, will be the guest artist. The Social will be the first of a series of socials given by the United Church.

The last Canadian housing census showed that 89% of all occupied dwellings were lighted by electricity, 54% by gas, 10% by oil, and 7% by gas. Twenty per cent of rural dwellings had electric lighting compared with 94% in urban areas.

During the year, when enough food was being produced to support the population.

Prime Minister, Mr. Gordon, explained some of the reasons for the collection of goods necessary to support the war effort. He said that the collection of goods necessary to support the war effort is a task that must be done by the people of Canada.

Family Allowances And Taxable Incomes

An Explanation—See Table and Large Advertisement in This Issue of The Standard

In determining the methods developed to avoid duplication of income tax credits and family allowances, announced last week by the Department of Finance, the Hon. Donald Gordon, Minister of National Health and Welfare explained the fact that the Family Allowances Act was passed primarily to help equalize opportunity for children of parents who are low income. Because of this the law does not allow for parents who have been in receipt of family allowances for a long time.

Mr. Gordon pointed out that under the Act everyone with children under 16 years of age is eligible for a family allowance of \$100 a year.

For instance, a family living on \$1200 a year with three children, aged 15, 12 and 7 will receive a family allowance of \$100 a month, \$12 a month and \$12 a month a total of \$24 a month. This would amount to \$288 for the year.

According to the plan provided by the Department of Finance, the family will be paid the full tax credit for the children and will also receive 50 per cent of the family allowance of \$100. This means that the family will be paid \$120 a month.

In another example, quoted by the Standard, a family living on \$1200 with a family allowance of \$100 for the half year of \$120.

On the question of how several members of the United States delegation are leaving that they have been released from Japan remain under United States control.

At a news conference, Mr. Riddell proposed international control of the Ruhr, once the heart of Germany's war production mechanism, and called for closing British invasion routes for all time.

While some might still be in the path of the conference, Archibald MacLennan, assistant secretary of state, predicted that the "four great powers, Russia, China, Britain and the United States, will find a common ground of agreement on arrangements to the Danube River basin for a world organization.

Everywhere where there existed an industrial plant which could avoid Germany's war effort, that plant, whether important or trivial has been utterly destroyed or at least badly damaged by bombing.

Everywhere where there existed an area in which the German army had been sheltered by bombing and while they had been out of the area, they had not directly contributed to the German war effort has been left almost unscathed.

In the broken and shelled areas, hundreds of square miles of land have been left in ruins. The cities are in ruins, the roads are in ruins, and the people are in ruins.

Hope To Find Common Ground At Conference

San Francisco—Reports that the United Nations security council will meet in official position from the United States.

United States delegates, it was learned, have taken the stand that the United Nations security council will meet in official position from the United States.

The U.S. stand became evident when the United Nations security council will meet in official position from the United States.

The Big Three leaders, Secretary of State, British Secretary of State, and Soviet Premier, will meet in conference, and it was reported that they will be held in the United States.

While delegates believed to a last minute, they will be held in the United States.

On the other hand in the villages and towns where there was no war, the population is in ruins, the roads are in ruins, and the people are in ruins.

Hope To Find Common Ground At Conference

San Francisco—Reports that the United Nations security council will meet in official position from the United States.

United States delegates, it was learned, have taken the stand that the United Nations security council will meet in official position from the United States.

The U.S. stand became evident when the United Nations security council will meet in official position from the United States.

The Big Three leaders, Secretary of State, British Secretary of State, and Soviet Premier, will meet in conference, and it was reported that they will be held in the United States.

While delegates believed to a last minute, they will be held in the United States.

At a news conference, Mr. Riddell proposed international control of the Ruhr, once the heart of Germany's war production mechanism, and called for closing British invasion routes for all time.

While some might still be in the path of the conference, Archibald MacLennan, assistant secretary of state, predicted that the "four great powers, Russia, China, Britain and the United States, will find a common ground of agreement on arrangements to the Danube River basin for a world organization.

Everywhere where there existed an industrial plant which could avoid Germany's war effort, that plant, whether important or trivial has been utterly destroyed or at least badly damaged by bombing.

Everywhere where there existed an area in which the German army had been sheltered by bombing and while they had been out of the area, they had not directly contributed to the German war effort has been left almost unscathed.

In the broken and shelled areas, hundreds of square miles of land have been left in ruins. The cities are in ruins, the roads are in ruins, and the people are in ruins.

On the other hand in the villages and towns where there was no war, the population is in ruins, the roads are in ruins, and the people are in ruins.

Opportunities for ALL

YOUR Liberal Government under Mackenzie King uses practical steps to see that every Canadian who wants it has a wider choice of career and a real chance of a better life. It can be done by giving everybody the opportunity to get ahead faster and go further.

It's not what you want — it's a chance to make your own way in life your own way.

Here are definite, practical steps which the Liberal Government has taken (not just talked about, but taken) to make this Canada a better place to live in and bring up your children.

You will have to decide whether you want the men who devised these measures to carry them through, or whether you wish to entrust your own and your family's future to others.

1 Reconstruction
Plans for jobs for 900,000 more workers than in 1939 and 60,000 more each year in the next five years. Every kind of enterprise will be encouraged. The Liberal Government has already set up the machinery: the Department of Reconstruction.

2 Foreign Trade
Liberal objective: 50 per cent increase in value of Canada's foreign exports. That means more money for Canada, and it is based on the number of jobs created by Canada's normal export trade.

3 Credit for Enterprise
The Liberal Government set up the Industrial Development Bank to provide money at low interest for long terms to help enterprises to develop new business. Another step towards creating full employment.

4 Export Encouragement
A new department was set up to help thousands of Canadian exporters. To facilitate this, the Liberal Government has set up the Export Credit Insurance Act to do two things: (1) to insure Canadian exporters against loss, and (2) to make loans to foreign buyers.

5 Farm Improvement
Your Liberal Government has made it possible for farmers to have their farms improved by providing them with a better way of life.

6 Government Markets
The Liberal Government made contracts for definite quantities of important products at agreed prices—cattle, bacon, eggs, cheese and milk. These contracts have worked out so well the Liberal Government extended many other longer periods.

What you have done in war—you did in peace. You can do your part by supporting the Liberal Candidate in your constituency.

BUILD A NEW SOCIAL ORDER

LIBERAL

HOW WILL THEY SETTLE DOWN? Settling in to home life. But how will they settle down? Will it be hard for them to take up the threads of normal living as citizens, husbands and fathers?

Most people agree that settling down will not be easy. Appreciation of the strain on personal and social relations which average service men have is much greater among the better educated than among those who have only been in public school. Then, too, the men who probably be recruited, serving overseas, and about 100,000 will be hard for them to stay on the farm where life will be less quiet after all the travel and excitement overseas. The U.S. is hoped that his return will be with some difficulties in the way of adjustment to the new life.

All this means very largely that, over and beyond provisions for medical care, recreation, vocational training, etc., there must be some sympathetic and imaginative community action, designed after the first time of release to make men feel they belong in a country that has been with them in the fighting and in whose life they share.

Settling activities for the G.I.s. May 1946. Free Sports Day comes on May 19th. Get your team organized and be sure to enter early. See posters.

THE GRACE OF GOD, the Allied Nations of the world have brought to a victorious conclusion the human conflict that has raged in Europe for nearly six years.

The cost of this War, in suffering and loss of life and worse, we citizens of Canada can realize only too well as it applies to those countries in which it was waged, by the shock of the loss of our own loved ones.

May we join you all in renewal of our pledge and fervent prayer that war shall not come upon us again?

"The Torch of Peace is again thrown to us. Let us not break faith with those who sleep."

Now thank we all our God

WE JOIN with all Canadians in giving thanks for the Victory in Europe, which has delivered us from the perils of dictatorial domination and brutal ruthlessness.

Our heartfelt thanks go out to all our fighting men who, by their courage, devotion and sacrifices, have once again made us all proud to be called Canadians.

Our heartfelt thanks go out to all our fighting men who, by their courage, devotion and sacrifices, have once again made us all proud to be called Canadians.

Price Control And Rationing Information

Q—Do I have to surrender ration coupons for infant's food?
A—Infant's cereal products are rationed, but the cereal flour or milk mixed with rice or any other food is rationed. The rate is 30 lbs. per one person per month, which gives you four of the small size cans.

Q—Which coupons will we use for preserves and sugar for canning when the present stock of oranges preserves coupons has been used?
A—You will use coupons for the ration five for this purpose. The Board will announce in the usual way when the first coupons on this page will become valid.

Q—I am waiting for my discharge from the Air Force. I have been told that it will be difficult for me to purchase a civilian suit. The Government not try to help the veterans in obtaining clothing?
A—Every discharged man or woman at the time of discharge will be issued a certificate which will enable him to buy one other ready-made suit or suit (tailor) in measure. These certificates will greatly assist the veteran in buying his suit, but it is not compulsory that the certificate be presented when a purchase is made.

Q—Have any of the ration coupons in the ration book been found invalid?
A—No. The ration coupons in the book are still valid.

THE WORLD OF WHEAT

Thriving in Battle

Barrie Gault, O.L.A.

By H. C. M. Briggs

AN EASY WAY TO GROW VEGETABLES

When I was farming as my second job, I was anxious after the day's work to have the vegetable garden. I had a short cut. Immediately after what was called a "plough" I had a strip on the stubble we intended to summer-fallow. Then I sowed my vegetable seeds in the stubble strip in long rows, leaving a space between the rows equal to the width of the usual cultivator or disc.

Oil Field Production

18,385 Bbls. February

46 Wells on Production;

Holly 11 "Tops"

Vermilion oil field production from 18 active wells during the short month of February was 18,385 barrels. This was a daily average of 627 bbls. and is lower than the longer month of January when the average was 714 barrels. Production for the same month a year ago was 18,444 barrels.

The Holly No. 1 was top producer with 486 barrels, followed by the Breckinridge No. 1 with 376, Canar No. 14, 161 barrels and two other Canar wells in the 400 barrel range.

The Oil Discovery well drilled by Winslow Wilson away back in 1928 and on pump ever since the spring of 1940 continues steadily along and produced 141 barrels.

Individual well production was as follows:

WORLD HAPPENINGS
BRIEFLY TOLD

Dr. Arthur Hadden and his wife, the former Miss Hadden of Lethbridge, arrived home on Monday, April 13, after spending two weeks in the United States.

On Thursday evening, thirty-five friends of the popular young woman called to extend a very best wish for her future happiness.

Mrs. A. Hadden is a member of the Lethbridge Y. W. C. A. and has been a resident of Lethbridge for several years.

E. M. Stewart and Melvin Hill representing the Board of Trade and Mayor Morrison and Councilor R. W. Marshall attended the Western Alberta conference held in Edmonton on Tuesday and Wednesday this week.

BOB-TO: Mr. and Mrs. Walter Trout of Chatham, Alta., a daughter (Vivian) on May 13 in Lethbridge hospital.

BOB-TO: CPO. Arthur T. O'Neil (CHUCK) and Mrs. O'Neil at the Royal Jubilee Hospital, Victoria, on May 13, 1943, a son, 7 lb. 12 oz. (Vivian).

Mrs. Bob Wytro has been ill most of the week but she is better.

W. R. J. Jarry received the sad news of the death of his son, May 12 of his sister, Mrs. A. C. Jarry, after a lengthy illness, at her home in Lethbridge, B. C.

J. B. Linnard, old timer of the Bursfield district, who was a short time ago, from Bursfield, B.C., that he is trying to get the estate and conditions in that area and expects to be there for awhile.

Friends of Robert Leary will be interested to learn that he is still at the Bursfield Hospital, B.C., but has been transferred from his old ship to the "H.M.C. (Hospitals)". He is now at the Bursfield Hospital, B.C., and is quite strong with the new condition.

Miss Dorothy Taylor of the Royal Albert Hospital, Edmonton, and Miss Margaret Taylor of Banff, spent last week and visiting their parents, Mr. and Mrs. J. Taylor, in Vermilion.

Miss, Dorothy Taylor, daughter of Mr. and Mrs. Curtis Wilson, is home from Toronto where she spent the winter.

Miss Loretta Monaghan of Hamilton was among the graduates in Nursing from the Macdonald hospital on Friday.

Mrs. Mrs. Doherty of Lethbridge is at the home of her daughter, Mrs. Ashley Cooper from Friday to Sunday this week.

Mr. M. L. Apper is taking his home training at the Western Training center, was home over the week end.

At Last— Far Pay for the Farmer

"Canadian farmers have never had a fair return for their labour. They are forced to buy in a protected market at relatively high prices and to sell in a world market at generally low prices. What agriculture needs is not crutches to carry its disability; it needs to have the disability removed. This can only be accomplished by permanent measures and long range planning."

John Bracken

At last—a farmer fights for fair pay for his labour! For more than twenty years John Bracken, the Farmer, was the undefeated leader of a Farmers' Party. Today, as leader of a great, national, progressive party, he is determined that throughout the length and breadth of Canada there shall be a fair square deal for agriculture... fair pay square deal for agriculture... fair pay square deal for agriculture...

The Farmer shall be guaranteed a proportionate share of the nation's income.

A permanent policy for forward progress shall be guaranteed to farmers—by law.

The prices guaranteed will be calculated by a non-political council, and will be based on the farmer's proportionate share of the national income. These prices will be announced before the production seasons.

This policy will increase present average farm income by not less than twenty per cent.

It takes a farmer to understand farmers' problems. Only a farmer knows the full economic injustice from which farmers suffer. Today, John Bracken is fighting for fair pay for every farmer. The leader of the progressive Farmers' Party, he is determined to see that the farmer's share of the national income is increased. He is determined to see that the farmer's share of the national income is increased. He is determined to see that the farmer's share of the national income is increased.

Today, John Bracken, the Farmer, seeks the necessary authority to put into immediate operation the far-reaching...

A Farmer fights for you... He needs your help.

V-E day will ever be remembered with gratitude and thanksgiving. The day brought much happiness and also much sadness, bringing back memories of our boys who sold the supreme sacrifice to bring V-E day about. Let us hope they did not die in vain.

Congratulations are extended to Mr. and Mrs. Gilbert Harrison on the birth of a son in the Vermilion hospital. The new baby has been received with much joy and affection. The mother and child are doing well.

Mr. Harry Symes has had as her guests her mother and aunt, Mr. and Mrs. Jackson who are here from the States. He is 18 years since Mr. Symes had seen them.

Little Sandra Harrison who has been sick with whooping cough is recovering nicely. Margaret Paden has also been on the sick list. A speedy recovery is wished our sick ones.

Mr. Wabshaw and Mr. Stevenson of Waterbury expressed their desire to visit the Vermilion hospital.

WOODVALE

This is written on V-E day, a day for love and grateful feelings and thanksgiving, a day everyone has been hoping and praying for these many years. Now to go ahead and work out a plan to help and to help others for a future victory of the peace.

ANY CARBURETOR WHILE YOU CAN

This year there must be no "black season" at Western mines. Every miner must be kept working if you are to be sure of your next winter's supply of coal.

Do not rely on being able to order coal later on. You might have to wait days, or even weeks, for delivery. Get your dealer to fill your bin as soon as possible.

DEPARTMENT OF MUNITIONS AND SUPPLY

Mr. C. D. Howe, Minister

Tractor, accompanied by three other boys, had been trained by three boys, playing the game, and thirty boys of the Vermilion hospital. The tractor was being used for the purpose of training the boys in the use of the tractor. The tractor was being used for the purpose of training the boys in the use of the tractor.

SAFETY SERVICE

SAFETY SERVICE was never more important than it is today. Not only is Spring traffic heavy, but many vehicles are over-age and in poor mechanical condition after a hard, punishing Winter. Take the first step towards safe driving by completing the Safety Check-up. Let him put your brakes into sound, efficient shape. Let him overhaul your steering, use your wheel alignment and tire. Let him check your lights, windshield wiper and glass. Remember—the life of your vehicle and the safety of yourself, your passengers and other road users all depend largely upon the good mechanical condition of your car or truck.

Agriculture Abroad

THE PRODUCTION AND DISTRIBUTION of food has been one of the most complex problems with which the Allied Nations have had to contend during the past six years. For almost all of that time Great Britain and Europe have been cut off from normal supplies of foodstuffs. Great Britain because of the scarcity of shipping space, and Europe because of the necessary naval blockade which lasted until "D" Day, and in some cases much longer. In Europe there has been additional difficulty caused by the fact that such farms had on that continent has been in the path of battle. There has also been widespread shortage of land and livestock by the retreating German army. It is expected that it will not be long before grain crops can again be produced there, but the re-establishment of the meat and dairy industry will take many years. Meanwhile food and farm equipment will have to be sent from other countries to assist in the rehabilitation of those nations which have been most seriously deranged because of the war.

Faced Serious Food Shortage

In Great Britain the problem has been less acute, but that country nevertheless faced serious food shortages at the beginning of the war. At that time, Britain was the largest importer of food in the world, but the need for shipping space for vital war supplies made it necessary for food imports to be sharply reduced. In order to meet this situation a great wartime program of farm mechanization was undertaken, resulting in the increase of arable land from 12,000,000 to 18,000,000 acres. This brought nearly one-third of the total area of the country under cultivation, and made possible the production of at least twenty per cent more food than before the war. A unique nationwide electrical system has made electricity available to every seven per cent of the population of the British Isles, so that factories in even the most remote districts could make use of the newest mechanized equipment.

Farm machinery in Britain now includes more than two tractors in every square mile of territory, and seven tractors for every square mile of arable land. Fifty-two types of tractors, all produced in the United Kingdom, are available. In addition, a large number of other agricultural machines have been developed during the war, and in some cases have been improved from their original design. In spite of this great expansion of the British farm industry, and during the past few years, changed from a manual worker to a machine operator. It is said that the British farm laborer has not introduced to him any new type of machine. When shipping conditions return to normal, British farmers will be asked to supply milk, vegetables and other produce foods which have been produced there, but much food will again be imported from abroad. Britain, however, is looking forward to building up an export trade of farm machinery, which has been so successfully manufactured there during the war.

Practical Education Have Solved Problem

Edmund Woods For Remote Areas In Far North

In a recent survey of educational needs for remote areas of the far north, C. H. Perry, administrator for Northern Saskatchewan, reported that practical education is needed for the boys and girls living in the north.

As almost every family in the north owned an old motor vehicle, the mechanics should be included in the courses for the boys. Other courses for boys should include: conservation of forests and animals; milk for farming; simple electronics, including information on the value of furs and goods used in trade; the use of fire arms; map reading and navigation. For the girls, Mr. Perry suggested instruction in cooking, sewing, home nursing, power, and simple electronics. Mr. Perry suggested that the government build and operate two boarding schools in the five education of some 200 children of scattered families in remote areas, and also build seven new schools in permanent settlements.

READY TO MOVE

Authorities permitted the documents that during Britain's darkest days, the war, were made to move. Parliament from London if necessary. Under one of several alternative measures would have gone to West-Edmonton and used the Saskatchewan government there as a meeting place.

Airline Control

The Only Practical Way To Avoid Business Competition

R. J. Smyth, president of Trans-Canada Air Lines, and newly elected president of the International Air Transport Association, said in an interview, "That allocation of air freight to international airlines is the only practical way to avoid ruinous competition in world commercial aviation."

He added that "chaos" in the air and unchecked rivalry would be fatal to an orderly expansion of commercial air travel.

By standardizing procedures, the International Air Transport Association, composed of 25 airlines of 25 nations, will bring people and nations closer together, helping to break down many of the barriers between, he said.

Price Control And Rationing Information

Q—My son expects to be discharged from the army in a week or two. How will he obtain his ration book?

A—Connecting May 1st, persons discharged from the armed forces will obtain Form R13-4-D "Application for Civilian Food Ration Book" from their respective discharge authorities. These forms, when completed, may be presented to the Local Ration Board in the community and a ration book will be issued.

Q—The storekeeper in our town is adding his customers to carry home so many parcels as possible without being stopped. Is there actually a serious shortage of wrapping paper?

A—All retailers have been drastically cut in their stocks of wrapping paper and bags. I would like to suggest that when at all possible customers should carry their parcels wrapped. Using shipping bags would greatly ease the situation. Return paper bags and wrapping paper to the store would also be a great help.

Q—Should I place the labels which are being placed on most of the goods in my store?

A—These labels are placed on articles of clothing, shoes, hats, etc., and should be carefully looked after. If you find that the labels do not give you satisfaction, and you wish to report the matter to the Wartime Prices and Trade Board, the label will give you the information to the manufacturer, and will place the date of purchase on the label.

Q—Is the price that decorators charge for papering walls controlled by the Wartime Prices and Trade Board?

A—Yes, the prices are controlled, but the board does not charge directly during the war period, they only do so after October 1st, 1945.

Please send your questions or your request for the pamphlet "Consumer's View" or the book "How to Keep Track of Your Budget" to the nearest Wartime Prices and Trade Board office in your province.

Health LEAGUE OF CANADA TOPICS OF VITAL INTEREST

HEALTH OF WORKERS MATTER OF NATIONAL CONCERN

The Health League of Canada's plan for health education and medical supervision in Canadian plants appears to be a real need throughout our industries. It was stated in a message sent to the Industrial Branch of the League by Hon. Brooks Chilton, Minister of National Health and Welfare.

The plan—developed in cooperation with the Ontario Department of Health—advances (1) how to start and operate a medical program for workers; (2) how to improve eating habits of workers; (3) how to maintain health of workers with a practical educational campaign.

In his message, Mr. Chilton said the Industrial Division of his Department is actively interested in the promotion of health among Canadian industrial workers.

School Calendars Available from Dept.

At the last session of the Provincial Legislature it was announced that the Department of Education would be responsible for returns in Agriculture and Home Economics, and steps are now being taken to reconstitute the School of Agriculture at Vancouver Island University for the next school term, which commences in September.

Elections are necessary in only two divisions of the Vermilion River—Columbia district, which has been given to Elmer Clay Jr. and Dick Treisman in D.S. 2, and to H.G. Drayton in D.S. 4, in the 11th district.

H. G. Drayton is the candidate in the 11th district, and is a resident. This is the district which includes the city of Vancouver.

Clay in D.S. 4, which is the Vermilion district, W. J. Cantelano is better known, and is a resident. He is elected by Norman McNeilan.

Each For All

IN HIS MESSAGE TO THE MEN of the First Canadian Army on V-E Day, General Crerar said in part: "Each for all" has been the guiding principle of the Canadian army in battle. That same principle is the essential one to which we must adhere if we are to secure the life and growth of democratic government in the world; that community spirit which has been the strength of the Canadian people in the past. Although this message was directed to the troops, all Canadians would do well to consider the thought expressed therein and to reflect on how the spirit of that guiding principle—"each for all"—might be used in bringing about a better world for all.

When members of the armed forces return to civilian life, and our war industries are converted to peacetime production we shall be concerned with the same principle. The magnificent spirit of the Canadian people in the past has been the strength of the Canadian people in the past. The magnificent spirit of the Canadian people in the past has been the strength of the Canadian people in the past. The magnificent spirit of the Canadian people in the past has been the strength of the Canadian people in the past.

People Should Use Franchise
The principle "each for all" has many applications to the conduct of affairs in time of peace. In the people in Canada, there is every opportunity to use the franchise to secure the best government for the people. Others who have established it were before the war, and many other nations. In all of us have evolved to prove that the franchise is the best way to secure the best government for the people. The franchise is the best way to secure the best government for the people. The franchise is the best way to secure the best government for the people.

Hand Milking Is on the Way Out

Freedom from the tiring and tiresome job of hand milking twice a day has been gained by thousands of farm families through the use of a modern milking machine.

One person can milk up to 20 cows in an hour with a milking machine. It leaves a good head milkier busy to relax in 7 to 9 hours in the same time.

This saving of time and labor is important, especially when good farm help is hard to get, but of any time milking is a distasteful chore that the family is glad to have taken off their hands. The hour of time saved with a milking machine does mean something in dollars and cents but it means a lot more in making farm life easier and more pleasant. Everybody welcomes the relief from the milking time blues that a milking machine brings.

The modern, practical and economical way to do things is to use machines instead of muscles whenever possible. It is why hand milking is not for dairymen who have experienced the comfort and convenience of a mechanical milker.

Among the time and labor saving machines your local Massey-Harris dealer has to offer is the Roto-Way milker—the modern milker with the natural action. Ask him for particulars about this machine that does so much to make dairy farming easier and more profitable.

WOODVALE

We have finally had some good rain in these parts, mixed with hail, but no danger now. For awhile every about the dry weather can cease, at least every about that is still with us on these cold nights.

The very best values for a very happy married life in the Woodvale have lived all her life in our Woodvale district and her husband, Mr. Hugh Pearson. It is just a year ago that her sister, Miss Mary Pearson, died after a long illness. Her husband, Mr. Pearson, is now a member of the Woodvale branch of the C.P.A. and is a very successful business man.

Read what is being done on the road south of Woodvale school. It is a very good road and is being improved. It will be a very good road and is being improved. It will be a very good road and is being improved.

Word was received a few weeks ago by Mr. T. Preston that his brother, Mr. T. Preston, who died in 1938, was found to have been a member of the Woodvale branch of the C.P.A. and is a very successful business man.

training core Maple Creek, Sask., is a full platoon of Chinese soldiers, mostly Canadian born, getting ready for action in the Pacific. ... Ted Hawley of Progress district, B.C., got an order for 5000 weanling pigs for points in the Yukon and Alaska with tentative prospect of up to 3,000 each sector for the next several years.

Apple growers are big business and statistics prove that. Annapolis Valley apple growers had a net return from the 1944 crop of \$4,871, 871.85, or an increase of \$808,044 over the preceding year. The combined net return totaled 1,752,900 barrels, and this, while considerably below the originally estimated 2,000,000 barrel crop, was an improvement of 137,000 barrels over the previous year.

every year. Raising onions as a hobby he plants from 150 to 300 pounds of sets every year, having be-

between thirty and forty rows, 200 feet long. Specializing in growing and harvesting wild rice, the family has sold 400,000 lbs. this year and has another 500 lbs. left. At one time he harvested over 2,000 pounds of onions and corn. The family has been successful in the future in forest areas took the same interest in reforestation: as Ed Chapple of the 12th constituency of Vancouver, Ont. this country would be a model for all others to follow. He has been a member of the Ontario Forestry Association since 1927 and has planted 27,000 trees. Besides it being good business, he loves trees. In his forest, he has planted spruce, white pine, jack pine, red pine, white pine, walnut, cedars, spruce, soft maple and elm. Ed doesn't bother at the state of the forest. He says, "I don't know what the secret of his success is."

"I attribute my success to the fact that I have been in the business 30 years in the country and I have been able to close up my business by pursuing a policy of always practicing rigour."

He has a wife and three children, five grandchildren, and one great-grandchild. His uncle, who left the family business, is now a Western Retailer.

He is a member of the Woodmen of Quebec, the Woodmen of Canada, the Grange, and the Grange of Canada. He has been a trustee for four years and has attracted attention all over the world. The school this year has been a success. He has been a member of the Grange of Canada since 1927 and has been a member of the Grange of Canada since 1927.

◆ The editor of the *King's County Record*, Susan, N.R., gives us the benefit of some fine reporting. Since 1874, of the 18 Dominion elections we have come to realize that the people of this country are not to be taken for fools. Thursday, 20th Wednesday Elections held before 1874 took more than a day to complete the first in 1687 taking more than six weeks for polling. The first county election was Thursday, Jan. 24, 1874.

will enable cultivation of 2,900,000 acres or enough to produce under normal conditions about 1,500,000 tons of cereals.

Director Herbert H. Lehman said 15,000 of the tractors will be obtained in the United States.

Countries receiving the tractors fall into two classes: those who are able to pay for them and those who are recipients of UNRRA financial aid.

Everybody knows that "prefabricated" houses of various kinds will become temporary homes for thousands when the war ends. Few people, however, know that prefabricated buildings were known as far back as 1461.

In that year King John of Portugal began the practice of sending out trading ships equipped with special

prefabricated forts as protection against the native with whom they dealt. One of these forts, rebuilt and modernized, is actually still in use today at Bimbas Castle, in the Gulf Coast.

WEDDING BELLS

PARKMAN-PHILLIPS
A wedding of wide interest was celebrated at the classic church in Beattie, on Tuesday, July 19th, at 11 a.m. when Miss Lavonia Phillips, daughter of Mr. and Mrs. William Phillips, Beattie, was united in marriage with Joseph Parkman, son of Mr. and Mrs. Joseph Parkman of Vermilion. Rev. B. J. Hall performed the ceremony.
The bride was lovely in a two-length gown of white lace and tulle. Her hair was styled in long waves. The groom wore a tuxedo and a white shirt with a white bow tie. The ceremony was a simple one, and the couple were pronounced man and wife. The bride's bouquet was of pink and white flowers. The wedding party consisted of the bride, groom, best man, maid of honor, and bridesmaids. The reception was held at the home of the bride's parents.

WELL-LOVED PIONEER PASSES Death of Mrs. Fred West At 88 Years of Age

Three passed away at the Elm Point hospital on Wednesday July 26th, an esteemed and well-known pioneer of the Vermilion and Chalmers districts.

The deceased, Mrs. Fred West, was born in the Vermilion district and was a resident here since 1906. She was a devoted wife and mother and was a member of the Methodist church.

She was born in 1857 and was the daughter of Mr. and Mrs. J. C. Wood of East Grafton, Ontario. She was married in 1873 to Frederick West. They made their home at Sturtevant, Ont., until 1906 when they moved to Vermilion.

She resided in town for four years, growing steadily and contentedly and taking a prominent part in community life. She was the mother of five children and the grandmother of twelve.

WEDDING BELLS

NOMAN - MCDONNELL
 Mary, only daughter of Mr. John McDonnell of Vancouver and former of Vermilion, was united in matrimony to Mr. John Noman, of the same place, at 11:30 a.m. on the morning of July 28th at the Rev. Father McLaughlin's officiating.

Following the ceremony a lovely reception dinner was served at the home of the bride's parents, Mr. and Mrs. J. Noman, who were assisted by many Vancouver and Vermilion friends.

The happy young couple spent a short honeymoon at Victoria, B. C. and are now settled in their new home at 1111 West 1st Ave. in Vancouver.

The fact that Marshal Alexander was the son of an Earl helps him win the approval of those who are those who like Earl, and so that he is in his own right a creature and accomplished soldier who has been in the service of the British Empire in North Africa and Italy will help him even more on this side of the water.

The Post-War Problems Are A Severe Test

LONDON.—The end of the war leaves the victorious Allies face to face with problems of post-war political and economic reconstruction which threaten to make those with which the west confronted in Europe appear petty by comparison.

These problems, of a nature to place a severe test on Allied solidarity as well as on Allied joint planning, can be broadly divided into three main categories:

1. Those which affect the future of Japan itself.

How which affect the future of China and the form of occupation by Japan.

1. Occupation of Japan: Apart from the technical control problems there is the question of the supervision of a country of 100,000,000 people who have been subjected to a regime of rigidity-directed toward the future. There is the serious complication of a language hardly known to anyone outside Japan.

If, as has been reliably reported, the Japanese have confirmed the Allied occupation, it is to take the form of a four-powered division of the four

foreign members of the Big Three at Potsdam. Apart from the peace treaties

MEN FOR HARVEST
MONTREAL.—National service officials said they would recruit 3,000 men to work on the farming operations in Quebec—half the time in the state of Maine to help with the potato crop, the remainder to western Canada for harvest.

1. Liberation of China: China has been so profoundly affected in her political, economic and social structure by Japanese invasion and occupation that she presents an acute peace problem of her own.

First reactions from China suggest that the collapse of the Japanese empire, whose presence on Chinese soil has, for some time, stood for

Communists" may bring with it a real danger of a struggle for power which might become civil war.

Competent observers in London believe that only a clearly-worded joint statement of policy by Britain, Russia and the United States can effectively prevent a crisis between China and the United States.

If the governments of the Big Three could convince both the supporters of Gen. Chiang Kai-Shek and the Communists that they will not support either faction if it resorts to a forcible imposition of authority, a serious potential threat to peaceful settlement would be removed.

2. Japanese defeat and withdrawal will liberate British, French and Dutch far eastern territories. In each of these territories, separated by immense distances, the problem of urgent political administrative and economic reconstruction awaits the Allies. Here they will face the question of the extent to which France and the Netherlands will be invited to participate in the over-all Allied settlement and at what stage.

3. In the face of these gigantic problems it must be admitted that peace under the Allies far less advanced in

Work Commences On Anglican Rectory

C. P. Lacey, Anglican Curate, has been awarded a grant by the Anglican Church of Canada to build a new rectory on the corner of 10th and 11th streets. The new rectory will be a two-story building and will be the first of its kind in the city.

WHERE WILL OUR MEAT GO?

Must be said in Canada under meat rationing will be based on minimum of meat per person. The minimum is one pound of meat per person per week. This is a very low figure and it is not clear how it will be possible to obtain this much meat for the population of Canada.

SALVAGE PAPER PICK-UP SEPT. 26

The Salvage Committee of the City of Vermilion will pick up paper on September 26. This includes newspapers, magazines, and other paper products. The committee will be glad to accept any paper that is no longer needed.

STUDENTS TO SLEEP AND SAY IN ARMY BUNKS—Students of the University of British Columbia are going to live in army bunks next semester.

University officials completed the purchase of 77 army bunks from a military army camp through War Assets, and the bunks are now being moved by truck to the university campus.

To facilitate moving, the bunks are now in half sections of their length. Above photo shows an army being moved to the U.S.C. campus. Dormitory space on the campus is new to the university.

Col. M. H. Burns of the faculty, who is supervising the moving. Accommodation is being made for returned service men taking university courses in the "Porter", a full-time army house nearby. This camp will still be under army control, however, said the bunks will serve as temporary quarters for maybe five years, when, it is hoped, permanent buildings will have been erected.

THE DICE ARE LOADED AGAINST YOU

Conditions are lousy. So far we've prevented inflation and avoided deflation.

It's not just good luck. Your support—everybody's support—of price ceilings, rationing and other controls alone has made it possible.

BUT NOW COMES THE REAL TESTING TIME. The danger of inflation and its black shadow, deflation, will test as long on goods as scarce and inefficient to meet demands. With the war over and plenty of money in our pockets it's easy to overlook the danger.

It's easy to think that paying but a little more to get something we want is unimportant now.

It's easy to think that what you do can't hurt—and to forget that control, whatever buying is a sure way to help a general rise in prices.

Now the inflation game going.

BUT INFLATION IS ALWAYS FOLLOWED BY DEFLATION. And deflation brings cancelled orders, bankrupt business, mortgage foreclosures, unemployment and distress—distress you can't avoid.

Just industry gets back to normal, price ceilings, rationing and other controls are our safeguard.

So keep on watching your buying. Don't rush to buy scarce goods. Don't overspend your money. Put it in the bank. Buy wisely. Buy on a regular basis. Buy on a regular basis. Buy on a regular basis.

Keep on supporting price and price ceilings, and rationing. Keep on fighting inflation and its black shadow—deflation.

This advertisement is one of a series being issued by the Government of Canada to emphasize the importance of preventing a further increase in the cost of living now and deflation and unemployment later.

Every kind of children's, women's, men's clothing can save time and money.

Briefed Bulletin

The index of the Blue Book this week had a good time last Thursday evening when supper and a show were enjoyed in town. Nineteen were present, among them Miss N. Goss of Calgary who is at present visiting Mrs. L. Goss of Denville. It was pleasant to have Mrs. N. Goss who is feeling much better, with us here.

Mrs. Ketchum had her mother spend a week here on her way to the coast.

Dick White is on a two weeks touring visiting friends and relatives here.

Mrs. Korvick left for Edmonton on Thursday night for a two-day visit with her daughter Elsie.

Daily showers celebrated her 2nd birthday Sept. 19th.

Visitors at the prior's home on Sunday were Mr. and Mrs. D. Hargreaves and family and Mrs. F. Goss, Cecil and Miriam.

Joe Dwyer was outed hard at work working on the Walker farm.

Farm Machinery
The demand for farm machinery will not be met completely until 1947. Large, heavy-duty tractors, combine harvesters, etc., are now being built. P. M. Austin, vice-president of the National Farm Machinery Company, says the supply of tractors will be scarce but there is still a labor shortage. A shortage of operators is particularly in the combine production.

Canadian Soldiers Liked And Respected in Holland

Grateful Letter from Dutch People Received by Parents of Edward Hill

Mr. and Mrs. F. W. Hill of R.R. 2, Vermilion, have received an interesting letter written on behalf of a group of Dutch people, and telling of the liking and respect they held for the Canadian soldiers, and especially their son Edward Hill who is still in Europe and is not expected back here until spring. Edward has at times addressed meetings of the Dutch people, and on one of his letters he said his influence about Canada, which was interpreted by a pastor and was intensely listened to.

Mr. and Mrs. Hill have a second son, Wendell, who is still overseas and who has been in the Canadian forces. The letter, with its grateful phrases, is reproduced below exactly as written.

17th of April, '45.

To the relations and family of Edward Hill:

Sunday afternoon the 14th of April at half past four, the Canadians have made free our village.

Because of the great trouble for the German people and the heroism. We can say: "We are free!"

This evening we have gone to church to thank God for the liberation.

There I thought of them who called themselves Christian soldiers and who really are. They dare to give the highest to serve Christ. Never can I tell how thankful we are.

They have delivered us of that inhuman tyrant.

A group of soldiers had to stay in our village for a night. As many things we had to give to them. As we were in the German soldiers, as welcome to Canadians were.

My father is the headteacher of the school in which Edward and Wendell have been.

Radar

SCIENTIFIC PROGRESS was swift during the war, and there were many phenomenal developments in that field. Some of them will prove to be of value only for purposes of war, but others will have important peacetime uses. One of these is radar, better known to the public as "radio." One of the most closely guarded secrets of the war, radar is generally believed to have contributed more than any other scientific factor to the Allied victory. The British Ministry of Information has recently published an interesting pamphlet on the history of this device, which is described as "the most versatile weapon of the century."

Originally designed for defense, radar proved itself to be a powerful weapon of offense, and it is predicted that it will be as valuable in peace as it was in revolution in war.

Radar played a large part in the success of the decisive Battle of Britain. In the conference held at Chartwell by Arthur Tedder, then chief of the Royal Air Force, it was decided that the British Ministry of Information has recently published an interesting pamphlet on the history of this device, which is described as "the most versatile weapon of the century."

Price Control and Rationing Information

Q—We are being asked to buy the labels and make signs of our merchandise. We buy in bulk and in reason to complain about high prices for poor quality. How can I go about registering a complaint?

A—First you should do what you have already done—discuss any unsatisfactory merchandise with your retailer. If he feels it is in order, make an adjustment for you and take the matter up with his supplier. If, however, the retailer or his customer do not feel they are satisfied with the results of this discussion, you can give the facts to the local office of the Wartime Prices and Trade Board for further check.

Q—I have to buy special meat in my diet. Can I get more meat for my ration?

A—Yes, however you must have a doctor's or hospital certificate which must state on it the amount of meat you will require for your special diet. This should be sent or taken to the nearest ration bureau office.

Q—Our church group wants to make over some adult clothing in children's clothing to be sold in the UNRRA clothing drive. Could you tell us how we could get out of this?

A—A female Windsor is a hooded suit which will give you many white suggestions in the making over of children's clothing. You may obtain the grade book if you write to the Consumer Branch, Wartime Prices and Trade Board, in your province.

Q—Some friends tell me I can get dairy butter without any coupons. Is this correct?

A—No, dairy butter is rationed the same as creamery butter. One coupon will allow you to buy a pound of butter.

Q—In the change months of the war in Europe, radar was used to overcome the effectiveness of the first flying bomb and was about to be successfully employed against the V-2 weapon, when Germany played against it. Now that it is no longer required for war, that it may be used for many purposes. It will remove many of the hazards of air and sea travel during foggy weather, and it is believed of traffic detection. Radioactive waves are used to cut down the number of accidents on the roads. It is also used in the manufacture of radar equipment. Many thousands of men served in British Canada has made an important and valuable contribution to the great scientific development.

IN CANADIAN FORCES

Total of 1,881 from United States Excluded in Canada

A total of 1,881 men and women came from the United States to enlist in Canadian Forces—more than 40 per cent of them with the R.C.A.F.—in the second Great War, a comparison by the three services shows.

The figure represents those who, on enlistment, gave the United States as their permanent residence. Some of them may have been Canadian-born, but services available were given to cancel that off against the number of Americans born and raised in Canada.

Of the total, 836 related or were connected with the R.C.A.F., including 229 who served with the women division. Up to the end of July, 1945, 8,739 men and five women had been discharged from the R.C.A.F. to join the U.S. Forces.

The army related 4,740 American residents, including 547 C.W.A.C.s. There is no exact record of how many of them transferred to the U.S. Forces at the lines of Pearl Harbor or thereafter.

The nearest figure is that of 1,180, which must state on it the amount of meat you will require for your special diet. This should be sent or taken to the nearest ration bureau office.

Ammunition For Peace

Most of us have come to know the usual pattern of military victory in the war against the Axis—how the bombers and the heavy guns poured the way, then the engineers removed the obstacles and the soldiers finally the infantry drove forward to take the last battle.

But, what if the victory was not a military one, but a peace one? What if the victory was not a military one, but a peace one? What if the victory was not a military one, but a peace one?

NOW IS THE TIME to check your requirements for those odds jobs to be done before Winter!

For Your Requirements we have to offer: DRY SPRUCE, SHIPLAP, BOARDS, DIMENSION, SIDING AND FLOORING.

OUR STOCKS OF PAPER, ROOFING, CEMENT, WINDOWS, STORM SASH.

Are in Good Order!

We have had our mill workers in a row. This coming winter we will have our mill workers in a row. This coming winter we will have our mill workers in a row.

It's the man who looks ahead who gets ahead.

GOOD management... essential to successful farming, as to any business enterprise... is largely a matter of timely marketing and careful spending... waiting for the time when it is most favourable to buy.

All we want things now... things we have not been able to get for the past several years. Some of these things are necessities... some are things that will contribute to our comfort and pleasures.

Eventually, these things will be more plentiful. By waiting a little longer we will help to keep prices of things we need at lower levels and we will buy at better advantage when we do buy.

Meantime we can invest our savings in the safest securities obtainable... Victory Bonds. More Victory Bonds will be offered this Fall. They pay 3% interest... double bank interest... and they are "liquid capital".

If we need cash in an emergency any bank will buy Victory Bonds at any time. And any bank will loan money on Victory Bonds.

The Ninth Victory Loan will be our last opportunity to buy Victory Bonds for a whole year, to buy double the same rate of savings as in previous loans will pay for twice as many bonds over the 12 month period.

FARMERS CAN BUY VICTORY BONDS ON CONVENIENT DEFERRED PAYMENTS THROUGH ANY BANK

Just sign a short form from your bank which Victory Loan Salesmen carry (banks have copies) ordering the bank to buy Victory Bonds for you. Pay \$5 when ordering and the balance at any time during the next 12 months. The interest the bonds earn pays the interest on the bank loan.

Attlee Says Charter Must Be Fully Used

LONDON. — The United Nations charter is Britain's first line of defence and the British...

will make the success of the United Nations organization the primary objective of its foreign policy, Minister Attlee said.

Addressing a national demonstration of the United Nations association at the Albert hall, the minister said the League of Nations had done great work in the past. "Would that it had listened to more," he said.

Mr. Attlee emphasized the importance of his government to maintain

"The reason is obvious. We live in a period in history when mankind must either set up an institution of this kind—and not set it up but make it work—or consequences so appalling that mankind shrinks even from contemplating them."

"If war is to be avoided there must be something to do in the future that has often been done in the past."

"That is what the charter has been made for—to maintain international peace and security and promote the welfare of all peoples by international co-operation."

The security of the British empire and the commonwealth was bound up with the success of the United Nations, and in acceptance of this British policy must be based on and cut down conceptions wiped out.

"The charter is our first line of defence. It is not perfect. Nothing made by human beings ever is; but there is only one way of bettering it."

EIRE IS WORRIED

DUBLIN. — Neutral Eire has emerged from the war period as an economic paradox—with full labor and little unemployment, yet worried about her future trade prospects. Primarily an agricultural country, Eire sacrificed much potential industrial development in favor of neutrality.

But, on the surface, at least, Kipling's opinion today stands as square as a nail behind Premier de Valera's neutralist decision as it did before the defeat of Germany became a certainty.

The country's total trade, both imports and exports, fell from \$308,000,000 in 1939 to \$235,000,000 in 1940 in spite of rising prices.

SITTING IN JUDGMENT—Major Gen. H. P. Bernay Ficklin, is president of the British military court at Lüneburg, Germany, which is sitting at the trial of 45 Nazis charged with war crimes and conspiracy to commit mass murder. Among the defendants are Josef Kramer, the "Beast of Belzen".

To Supreme Court
BUENOS AIRES.—Apparently satisfied with the resignation of Juan Peron, strong man and vice president of the military regime, the navy was reported to be demanding that the entire Argentine government resign and turn the reins over to the supreme court.
 Peron, vice-president and "strong man" of the Argentine government,

Some early reports said he had been arrested, but later it was established that he had returned to his apartment from the war ministry. There many young army officers visited him, passing through a heavy guard thrown around the building.

A storm of opposition to Peron's military government, brewing for weeks, burst on the head of Peron

Col. Eduardo Avalos, whom Peron had elevated to the rank of brigadier general and placed in charge of the garrison, turned the tables on his old enemy in a grim behind-the-scenes struggle for power. The Montevideo report said Avalos was in control of

Tentative Agreement Reached For A Five Million Credit By U.S.

WASHINGTON—An authoritative American source disclosed that pending final decisions on commercial basis a tentative agreement has been reached in the current Anglo-American trade and credit negotiations.

Under this plan Britain would only receive the credit as she needed it and would also be given a "period of grace" of some five years before repayment would be required.

This source emphasized that there had been neither a crystallization of views on the American side nor an agreement with the British delegation on the rate of interest to be charged on the credit.

WOODVALE

We had better write a few lines for our column. A kind reader should be happy if the writer was sick, as she had missed the Woodvale news.

Thank you for the information to know that these articles really get read.

No. We have been far from sick, but the most from women at the school.

Whether writing or not, it has been a busy week and everything will be a little of the past again.

Well, but in these parts and around Tolland, school has gone from 1/2 to 1/2, 1/2 to 1/2 and 1/2 to 1/2.

Outing of one has been in progress until the end of last week; some farmers will start much of it to the ladies and heavy farm damaged the crops.

The only two yields we heard of early cut fields were 30 and 15 bushels, barley 30 and 15 bushels, barley 30 and 15 bushels.

Area of 12,000 acres just north of John R. Parsons, Edmonton barley, representing 20-30 (H) Company of Canada.

Oil search operations next spring are expected.

T.B. Christmas Seals Are Now Available

For convenience of those sending holiday letters or postcards, Christmas seals may be obtained now at headquarters of the Alberta Tuberculosis Association, 1017-10th Ave., W., Calgary.

T. J. Ferguson, although the seals will not be generally distributed until Nov. 1st, they are available now for advance mail.

Mr. Ferguson had many requests in the past for seals to put on advance mail.

He said Mr. Ferguson, "We are glad to provide them before the last day set by the post-office for boys and girls to send their letters."

INCREASING INTEREST IN VERMILION OIL

Imperial and Shell Oil Companies Reserve Large Acres

Oil reservations landed with the provincial government during the past week indicated exploration was over considerable areas near Vermilion is planned by two companies, the Imperial and Shell oil companies.

The Imperial oil company, which since 1941 Turner Valley's production has been decreasing while that of the Shell has been increasing.

Extending west of Vermilion to within about 15 miles of Edmonton, areas totalling 31,296 acres were reserved in the name of J. P. Jackson, Calgary representative of Imperial Oil Company.

The leases were taken in three sections, the largest being nearly 26,000 acres.

Area of 12,000 acres just north of John R. Parsons, Edmonton barley, representing 20-30 (H) Company of Canada.

Oil search operations next spring are expected.

Single Auto Plate To Be 1946 Issue

Alberta automobile last year will carry a single license plate with a color scheme the reverse of this year's—black lettering on an orange background—It was learned last week.

Motor vehicles in other provinces will still carry a single plate. The order for the license had to be placed by the various provinces early in the year, before the end of either the Burgess or Pacific week, when initial still was in short supply.

It is expected the province's allotment of two plates to each unit will return in 1947. The single plate will be attached to the rear of the car.

RITERS IN SEARCH

OTTAWA—Canada could never begin thinking about unretiring before itself until next spring," J. P. McDermid says after predicting another year of the proverbial winter that could be hoped for would be through when the water on the summer's frozen rivers comes back.

"I added five-trails that last year the patrig was cut to six ounces during the winter months."

He said that at first he thought they were all right, but when they were first at the North end of the lake, they were found to be too heavy. The men were forced to take them off and throw them away. The first week of October fell within three miles of the police. The Ministry had gained the experiment a success."

BRANCH DEMANDS

OTTAWA.—Municipalities have announced demands for several years ago. The city council has been asked to pay \$100,000 per year for the work of carrying out the sewerage system. WELCOME HOME

The following Vermilion and district servicemen landed in Canada last week end and are speeding to their homes. According to reports

In the spring of 1941 the Vermilion school of agriculture resumed its regular classes today (Thursday) with 115 first year students in attendance. The number is comprised of 40 girls and 75 boys. Five more are expected to arrive on Tuesday and Wednesday with actual classes commencing this Thursday morning.

Students are from a very wide area covered by Grande Prairie, Grimshaw, Cold Lake, Wainwright, Okotoks, and other communities.

WORLD FOOD AND THE PRAIRIE FARMER

III. WHAT ARE WE GOING TO PRODUCE?

NOTE: This is the third of a series of five articles, published weekly, written especially for the Weekly Press of the Prairie Provinces.

In any consideration of a production plan for the Prairie Provinces we immediately face the question of the relative importance of grains and livestock, and the means by which we can combine the use of both to the greatest advantage. It is obvious that livestock is best adapted, under the most favorable conditions, to the production of food for the human race. It is also true that livestock is best adapted to the production of food for the human race. It is also true that livestock is best adapted to the production of food for the human race.

FARMERS' BULLETIN

FARM MACHINERY OFF RATION LIST

All rationing controls have been removed from sales of farm machinery, and rationing on the production of an important class of farm machinery has been lifted.

Price controls remain. Generally, maximum prices for farm implements in the prices of such items sold during the last year, 1944, are to be maintained. (See Bulletin No. 1, 1945.)

Quoted prices do not include cost of delivery to the purchaser.

Under Consumers' Credit Order No. 225, section 10, terms of sale for farm machinery, 30 days credit is to be given on the basis of the cash price paid for the goods within two years of the date of the contract in closed contracts as specified above. Any extension of time for payment is to be at the discretion of the seller.

Despite the lifting of rationing controls, it is expected that the shortage of components such as cast-iron cylinders and sheet metal will limit the maximum output of these implements during the year 1945. It is expected that the shortage of components such as cast-iron cylinders and sheet metal will limit the maximum output of these implements during the year 1945.

Income Tax Reductions in Great Britain

LONDON.—The Labor government proposed to reduce next April the income tax on savings income by 10 per cent. The proposal, outlined by Hugh Dalton, Chancellor of the Exchequer, in a statement made in the House of Commons, was to reduce the rate of income tax on savings income from 10 per cent to 5 per cent.

Trade Matters Were Discussed At Conference

LONDON.—A conference of members of the British Empire, reported unanimously, favored of imperial preference. The conference, which was held at the House of Commons, was attended by representatives of the United Kingdom, Canada, Australia, New Zealand, South Africa, India, and the West Indies. The conference was held on November 1, 1945.

To Maintain Alaska Highway For Peacetime

In our last bulletin, Miss Olga Wey christened paid a visit to some of her friends in the Gaston district, where she taught last year.

Karl V. Wey, a Gaston artist, will carry a month away from where she is expected for a course in drawing and building construction at the Technical school.

After the end of this script it sounds more like the Gaston than Wendover name. Maybe we'll stir up something next time. Here is an advance tip — we are going for a short holiday in the Gaston district, and we'll be back another two weeks before we'll be writing again.

The Red Cross meeting will be held at the home of Mrs. E. C. Green on Wednesday.

The Canadian Women's Army Corps personnel from the London Area, brought home to Canada at the Royal Canadian Tournament held in Baring, London, England, last night, after they defeated an English team from Eastbury Youth Club. Although it was the first time that Canadian girls had been invited to the Canadian girls, inspired by their last morning class, Lady Gellies of Richmond, Ontario, who was the

the skilled English team. High points were certainly made by the players Agnes Bowler of Peterborough, Ont., centre, who scored eight baskets, and the forward, Mary MacLean, who played a game as guard, and three times during the evening met the challenge further down the line of the floor into the Canadian basket.

Proceeds from the game were in aid of the Red Cross and the proceeds in two other games held during the evening were for the benefit of the U.S. Army and the Canadian army at the hands of the North American U.S. Army teams. Players from the United States were: Captain, Mrs. P. Bain; Wm. Wilson; and Pte. P. Anderson, Regina.

The first wringing to take place in England between members of the C.W.A.C. and the R.F.A.F. was solemnized when Pte. Catherine Purinton, W.W.M.C. of the 10th Base, became the bride of Ptl. Sgt. Mark Honey, of Lybelle, N.E. The ceremony was held at the Park Artillery, in B.L. Patrick's Church, North Cape, Adelaide. The bride was given away by her step-brother, Cpl. J. Gerner, R.B.F.C. and attended by Pte. J. Gerner, C.W.A.C. of the Pax Man. The best man was Ptl. Sgt. W. P. Pothier, R.N.Z.A.F. of Auckland, New Zealand. The reception was held in the C.W.A.C. recreation hall at Aldershot.

 Capt. H. M. Clark, daughter of Mrs. M. M. Clark, 2108 4th St., Regina, has recently returned from overseas, after being there nearly three years.
 Upon obtaining the candidate's card from the Army Corps of Instruction, 1941, Capt. Clark was posted to 120th Ordinary Room School, I.A.C. (B) P.C. later taking a four month clerk's course at the Banqueton Training School. Upon completion of the course, she was the first of her kind in Canada. Completing the course, she was posted to No. 4 Coy. Regina in 130th Training Centre, where she remained until going overseas with the 130th in 1943. She was the first Canadian woman to do so.
 "It was quite a thrilling disembarment," she said.

CHRISTMAS WORKING TOGETHER IN THE COMMUNITY

Ministry. Before we can find the answer to the question, "What is the meaning of Christmas?" we must first ask, "What is the meaning of the Christmas story?"

The true significance of Christmas is not in the birth of Jesus, but in the love that He brought to the world.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

For the love that He brought to the world is the love that we are to share with all men.

CORRECTED NOTICE

TO FARMERS IN TOWNSHIPS 50 and 51
RANGE 6, West 4th M.

It would be appreciated if all farmers in the above localities would bring in all data on cultivated acreage and final yields pertaining to this year's crop, to my office.

This information is required for completion of Prairie Farm Assistance Reports.

SUDDEN DEATH OF ISAIAH WINTERS

The sad news of the sudden death of Isaiah Winters was received by the Standard here as the final two pages of the paper were being printed.

Mr. Winters collapsed while walking along the street about 11 a.m. Thursday morning. He was immediately rushed to the hospital but was pronounced dead on his arrival there. Mr. Winters was 50 years of age, had a brown face and black hair which was being styled by a barber.

He was a resident of Vermilion for many years and was well known to many of the town's people. He was a member of the local lodge of the B. P. O. Elks.

Honored On 25th Wedding Anniversary

On Sunday evening December 3rd a very pleasant evening was spent at the home of Mr. and Mrs. William Winters of Edmonton, in honor of Mr. and Mrs. Ar. Winters who were celebrating their 25th wedding anniversary.

A beautiful supper was served by Mr. Winters and Mrs. Winters. The table was prettily decorated with a beautiful centerpiece of white roses.

After the supper Mr. and Mrs. Winters were joined by relatives and friends. The evening was a most enjoyable one and the party was a complete success.

The remainder of the evening was spent in reading old letters. After a very happy and delightful evening the party was over at midnight.

Mr. Winters was born in 1895 and Mrs. Winters was born in 1900. They were married in 1920 and have three children: a son and two daughters.

Mr. Winters is a member of the local lodge of the B. P. O. Elks and Mrs. Winters is a member of the local chapter of the Order of the Eastern Star.

Mr. Winters is a successful businessman and Mrs. Winters is a successful housewife. They are both well known and respected in their community.

Weather Forecasting

WEATHER IS A FAVORITE TOPIC of conversation and it plays an important part in the forecasting of the future. Farmers know that the weather has a great deal to do with the success or failure of their crops and that this weather factor has an important part in determining the results of their work. In the winter months, it is equally important to know the weather, for it is the weather that determines the success or failure of their work. Frederick West, Pioneer of the West, Passes Away at Clononah

Frederick West, one of the most widely known and deeply respected pioneers of the Vermilion district, passed away at his home near Clononah on New Year's day at the age of 84.

Mr. West had enjoyed much health all of his life and was active until the day of his death.

The deceased came to Canada from England, and to the Vermilion district in 1882, when he was 35 years of age.

He was the first settler in the Vermilion district, and he lived in the district until his death.

He was a pioneer of the West, and he was a pioneer of the Vermilion district.

SKI CLUB PLAN TOURNEY

Jumping and Down Hill Attractions

The Vermilion Ski club is planning a ski tourney for Monday afternoon Feb. 2 commencing at 2:30 sharp. There will be ski jumping off the big jump at the ski hill west of town.

Several competitors, skilled in the use of the slippery hickory, will be on hand and something new and exciting is in store for Vermilion people who attend.

**Annual Meeting
Board of Trade
Next Wednesday**

The annual meeting of the Vermilion Board of Trade will be held on Wednesday at 12:10 noon at George's Lower Deck. An appointed committee will nominate a slate of officers and the meeting will be open for business.

Vermilion Board of Trade is frequently held up as a model throughout towns and cities in Western Canada.

Hockey at Arena
Monday Evening
V.S.A. vs. Canadian Legion Midgets

The V.S.A. hockey team will clash with the Vermilion Midjets, sponsored by the Canadian Legion, in a game at the arena on Monday evening commencing at 5 o'clock. Both teams have plenty of talent and are fast skaters.

and "get out and go" at top speed. College supporters will be out in full force and a goodly representation should be on hand from town to balance up the rooting. There'll be plenty to shout about, so be there.

Announcement

For the past thirty years I have conducted a Real Estate and Insurance Office in the Town of Vermilion.

I have tried at all times to give you, one and all, an honest and efficient service.

My business has grown to such an extent that I feel that I must have some assistance and have accordingly taken in to my business, as a partner, Mr. D. R. Mitchell, late of the Land Inspection Staff of the Canadian Pacific Railway Company.

Mr. Mitchell comes to the district with a full knowledge of land and of the various branches of insurance, and I ask for the new firm a continuance of the same support as I have enjoyed in the past.

I thank you, one and all, for the loyal support you have given me.

Water & Sewer BY-LAWS APPROVED

Date of Publication Will Be Announced
Next Week

The water and sewer by-laws of the
Town of Vermilion have now been
approved by the Board of Public Utility Commissioners.

The by-laws were passed at a meeting
of the Board on Thursday evening, the
6th inst.

They will then be sent to the
Board and the order formally approved
for the Board.

At that meeting the Board also
took up the matter of the proposed
formal notice to the public.

The formal notice to the public will
appear in next week's issue of the
Standard.

An effort will be made to have
the by-laws released for publication
in the Standard.

The Board also took up the matter
of the proposed form of the by-laws
necessary to have a great deal of
more time than most people think.

The Board presented several
resolutions which were adopted by
the Board.

Scientists To Probe Secrets Of The Arctic

OTTAWA—Scientists have started investigations aimed at discovering the unexplored world of vast uncharted northern wastes, situated between the arctic and boreal regions. Research in radio, improving navigation and generally increasing man's knowledge.

First step taken by the newly-created Arctic Institute of North America—established through international co-operation by Canada, Denmark, but conducted as a private organization—has been to offer one of two \$2,500 fellowships for Arctic scientific study.

This is a start in solving the secrets of the Arctic and will provide a storehouse of information on every aspect of that most elusive of

PIONEER FARMER LAID TO REST

WILLIAM CHARLES BERNHARDT

Funeral services for William Charles Bernhardt, pioneer farmer, died at his home in Vermilion, Alberta, on Wednesday, February 14, 1946. Interment took place in the Vermilion cemetery.

Mr. Bernhardt was born in Sweden, and came to Canada in 1901. He was a member of the Swedish Lutheran church.

He was survived by his wife, Mrs. Bernhardt, and several children. The funeral was held at 10:30 a.m. on Thursday, February 15, at the Swedish Lutheran church.

Interment took place in the Vermilion cemetery. The services were conducted by Rev. J. H. Smith.

Mr. Bernhardt was a well-known and respected member of the community. He was a pioneer farmer and a successful businessman.

Alberta Can Go Ahead—But Only On Good Roads

It is a fact that the most important factor in the development of any country is the quality of its roads. In Alberta, the roads are in a state of disrepair and it is urgent that they be improved.

Check that on your last year's tax return you have paid the correct amount of tax. If you have not, you may be liable for a fine and interest.

United Church Presbytery 21st Annual Meeting
Mrs. H. C. McLeod, Elated President

The 21st annual meeting of the Vermilion Presbytery convened in Vermilion on Friday, Feb. 20, 1946.

President Mrs. H. C. McLeod presided. Reports showed all organizations had met their objectives; \$11,649 being sent to the church treasury. Allotted service and group had also been completed in this total, also in supply work.

The high notes were struck in the address of Miss Dorothy Kitchin, as her life in Korea, as also told of the first service of how the missionaries did their best, but could not begin to cover those needs, and of the income devoted to personnel and buildings.

To see the change in Korean Christianity, in education, medicine and happiness was worth all our effort. Fifty candidates are needed now for foreign work. Are we lacking in the Christian education of our young people, and inclined to warm one behind at our own service?

Many appeared to have done more than a good share, and said more than a good share.

A glowing candidate service was given by Mrs. Baxter's group of C. G. S. T. Very few were present by the K. T. and Mr. King, and a beautiful supper provided by the W. A. led by Mrs. Miller.

Cooperation

IS THE PATH TO LASTING PEACE!

Today, moderation is a necessity. By moderating our pleasures, by controlling unessential spending, we serve our nation and ourselves best.

The House of Delegates for many years has advocated moderation.

Now, during these days of adjustment, it suggests it even more strongly.

We Canadians can still enjoy comforts, standards and pleasures that so fortunate people are denied. But let us remember that the continuation of these advantages belongs only to those who treat them with respect.

Let moderation be our intelligent contribution to the future—moderation in spending—moderation in all things we do.

Greater Wheat Acreage Needed to Meet Famine

Line Elevators Under Construction to Increase Storage

Objective

The Dominion Government has today urged to request Canadian farmers to grow the maximum possible wheat acreage this year, and to make use of all wheat grown in order to divert the widespread famine conditions.

A wire broadcasted to Prime Minister King by Cecil Lumsden, president of the Northern Plains Farmers' Association.

"From a review of the world wheat situation, it is apparent that there must be drastic upward revision in the Canadian government's agricultural production objectives for wheat.

Wheat acreage in 1945, which was 10,000,000 acres, has been set at 12,000,000 acres for 1946, which is 20,000,000 acres less than the average area in 1945. The Government is fully aware of the situation of food production throughout the world, and to meet this situation it is imperative to increase wheat production to the maximum extent possible.

"While we are in accord with the government's plan to increase wheat production, it is imperative to increase wheat production to the maximum extent possible.

SWIFT CALCULATOR

In Very Fast Time
By combining a centuries-old gadget with the latest in electronics the United States Army came up with a \$0-ton monster it calls "the world's fastest calculating machine." It may make possible more accurate weather forecasting. Improve industrial products and general advances in science and engineering the Ordnance department said in un-

Known as the "eniac"—for "electronic numerical integrator and computer"—this mechanical Einstein device designed by scientists of the University of Pennsylvania can solve in hours problems that "would take years" on any other machine.

It can compute in one second the sum of a five-digit number added to itself 5,000 times. The Eniac can subtract, divide, multiply, extract square roots, and solve complex equations.

The machine originally was intended

Scientists say it may offer a swift or calculating mechanism for weather forecasters, industrial designers, construction engineers, astronauts, research scientists and atomic physicists.

While it operates entirely by electronics, and contains no moving mechanical parts, it employs the basic principle of the "abacus" and ancient-style counting board still in use by many Chinese.

The "abacus" utilizes "bead-like" counters strung on parallel rods or

When punched cards, containing holes corresponding to arithmetical numbers, are fed into the relay, the light bulbs flash on and off in proper combinations.

Fast-moving electrons, fed at the rate of 5,000 a second activate the machine, and an ingenious arrangement of electrical circuits determines whether a problem in addition, subtraction, division, multiplication or square rooting is to be done. An

WOODYALE

We have to correct a mistake as made in our last news. We reported

daughter. We feel sure that the new lassie is just what the stock was asked to bring by her two older brothers.

The community expressed warm sympathy to Mr. Whitlock and family in their recent bereavement. Mrs. Whitlock, who had been in ill health for the last few years, passed away in the hospital on Feb. 28, burial taking place on the following Tuesday.

It is lucky we have a main road bordering on our district otherwise we would have to hibernate in the hills here this winter. The road from there to the school is in good condition too, so don't forget to come to the dance on the 22nd of this month.

The World Food Crisis

Attributed To Many Causes

The world shortage of cereals is one of the most serious aspects of the food situation. This shortage is attributed to many causes. Lack of moist, favorable weather conditions has decreased the use of bread and cereals in Europe. At the same time, due to the devastation of war, the average world wheat crop has fallen. The world wheat crop has fallen. In addition, where wheat is raised, it is often in small quantities. In addition, where wheat is raised, it is often in small quantities. There were in Europe last year to be seen of the poorest in history. The annual per-capita wheat crop in Europe averaged 1.6 million tons, while the year the yield was estimated at only about twenty-three million tons. Drought conditions in many parts of the world and a widespread shortage of fertilizers during the past few years have also contributed to the present scarcity of cereal crops.

available wheat (3.5 million tons) to be made ready for shipment overseas. It is estimated that the world wheat deficit for the first half of this year will be over five million tons. By the time of the next harvest, stocks of wheat will be depleted to such an extent that the world will be unable to meet its needs.

said by the Emergency Economic Committee for Europe said that over two hundred and forty million people are now forced to exist on a diet less than the 2,000 calorie minimum set by the U.N.R.R.A. authorities. Under present conditions hunger and dear starvation is the lot of these people, and it will be impossible for them to escape disease, which always strikes under these conditions. The people of all countries who are in a position to export food, will be called upon to make heavy sacrifices until the world situation improves, but there will be few who will not wish to do all that is possible to relieve the present crisis ahead.

Canadian Southern Association Pass Resolution
A resolution asking the Dominion

It was suggested that a certificate of nomination be furnished to the owner of each rail reported.

However, should the Dominion government be unable to reach a policy, the meeting asked that the province be given the authority per cent of the 1919 boom in diamonds. The province was to be an under-estimator.

Demand for the gems is described as "unbelievable."

It is widely known that the diamond syndicate has adopted a new policy of selling the diamonds in large quantities in accordance with the ruling market prices.

Well-known diamond traders expect their prices to increase later in the year.

A surprising feature of the boom

Agencies of the associations wanted to denude as war industry
penetration would eliminate the necessity of blood tests in exporting cattle
to the United States. Present vaccination is not recognized by that
country because it is not carried out
by approved veterinarians.

With the grain that is the staple of the diet of the average Egyptian, wheat and corn are the only crops available. In North America, wheat and corn are the staples and the United States, the world's single largest producer and exporter of wheat, has the production available in 1942, for example, approximately 1 1/2 times that of the United States. More than 90 per cent of the wheat delivered to the United States was exported, and 422,000 tons of wheat, valued at \$100,000,000, were shipped in the first quarter of 1942 in the middle of February. But only 9,000 tons of wheat were exported by the American Government, Raymond Hoar, the United States Ambassador in Cairo, said in a broadcast. "The reason for this is that the shortage of wheat was due to the fact that we had had a very bad winter and have had more than ours

Wildmere Winks

We will start with some late items but they are all of interest. We are sorry to hear of the passing of Mr. J. J. Wilson, who was a well-known resident of this town. He was born in 1871 and died on March 5th. He was a member of the St. John's Episcopal Church and was a very kind and generous man. He is survived by his wife, Mrs. J. J. Wilson, and several children.

TIGERS WIN CUP IN GREAT SERIES

1400 Fans Attend

PRESENTATION OF TROPHY MADE

At the end of the game A. M. Watt, president of the Eastern Alberta Hockey League, addressed the crowd

and congratulated the Tigers for their victory. He then presented the trophy to the team captain, Mr. J. J. Wilson.

The Tigers' victory was a well-deserved one. They had played a very hard and clean game, and their fans were very proud of them.

The game was a very exciting one, and the fans were very entertained. The Tigers' victory was a well-deserved one.

Peace-time Problems

DURING THE WAR Canada was a peacetime land among the nations of the world. The typical industries and the manufacturing activities in shipping, in power, in the production of food and other necessities were very great, were considered in relation to the state of the population here. These results were achieved because the entire country was organized for the purpose of giving the fullest support to the winning of the war. In time of war there is almost nothing which is considered impossible in the interests of speeding victory. When difficulties arise in production, transportation, or other vital places, expert advice is obtained and resources are quickly provided. These methods, which proved so effective in war, should be equally useful in dealing with peacetime problems, some of which have already appeared in the form of the housing shortage, unemployment and the need for change.

Demand Here Is Not Sufficient

In dealing with peacetime problems, both in internal affairs and in relation to other countries, there is need for continued planning and organization. It is evident that there are opportunities for expansion here, in many lines, in agriculture, in manufacturing and in scientific and cultural endeavors. Canada is a country of great potentialities, but it is not to be developed to its fullest extent until we have either a much larger population or greatly expanded markets. The latter is the more likely to be developed in the future, and this is a problem which vitally concerns the future development of this country and which will have far-reaching effect on such matters as taxation, employment and farm prices.

Much Agriculture Still Unused
In agriculture there are opportunities for great expansion. The Department of Agriculture, recently stated that there are about 100,000 acres of land in Canada which are not being cultivated. This is a large area, and it is estimated that this land would provide for 100,000 to 150,000 more people. It is pointed out, however, that there are many other factors which must be considered, such as the need for a greater increased foreign market. These figures show the possibilities for the expansion of agriculture, and they also show the need for a greater foreign market. To deal with these matters we must have the same type of organization and planning which controlled in no great a measure to the winning of the war.

New Wallpaper Produced By English Women Scientists

A new wallpaper which enables a room to be warmed up in one-third the normal time has been produced by English women research scientists. The remarkable heat insulator reflects the heat from an electric fire instead of absorbing it into the wall. The active side of the paper is covered with a fine mesh of metal, which allows with which the paper is being used to the plaster of the wall.

Q—If a tenant expects a dwelling with the written agreement that he is renting same for a period of five months, can he be given notice to vacate if he refuses to move when the five-month period is terminated?

A—Yes, if the lease is for five months only, the owner may expect to receive possession of the premises at that time. This lease for five months will become void for its purpose and the tenant is not entitled to any notice to vacate.

Q—Are we going to have rationing in 1946?

A—Yes, in 1946 each consumer will be allocated ration coupons to purchase ten pounds of sugar for eating purposes. You will be advised in the near future which coupons will become valid for their purpose.

Q—Is there a selling price on a 1933 used car?

A—Yes, there is a selling price on all types of used cars, no matter what year they were manufactured. Contact your nearest Wartime Price and Trade Board office for information on selling price for cars and trucks.

Q—What to secure some maple syrup from Ontario, how should it be done?

A—Consumers buying direct from producers must obtain purchase vouchers from their local Wartime Price and Trade Board office. These vouchers must be presented when purchasing maple syrup from producers.

"Keep Fit" Class Holds Final Workout of Year

As a culmination of a very successful season the "Keep Fit" class held its final workout on Monday April 3rd.

The members enjoyed the hard work and the well-earned entertainment.

Everyone returned late in the evening which consisted of a social and a dance, and ladies presented complimentary of new clothes from the evening session.

As a small token of appreciation, Elaine Howell, the instructor of the "Keep Fit" class, was presented with a gift, a pretty gold watch.

Elaine has given freely of her time and energy during the evening session.

The members of the class "Keep Fit" and it has all been a success.

The ladies appreciated the hard work and the well-earned entertainment.

They will take them on again next fall.

Gave Life to His Country

On Thursday afternoon April 11th the community was shocked by the sudden death of George Hobson.

George had been admitted to hospital possibly less than two hours before his death. In fact had wanted to walk up to the hospital, but as Mr. Hobson was about to go up to Mr. Hobson, George went in to see his wife and children.

George Hobson was born in Lloydminster, Jan. 2, 1918 and had lived in Lloydminster since 1931. He attended his schooling here. In 1931 he was employed by the Canadian Pacific Railway. He was a member of the U.S.A.A.F. and saw much of the north. It had been a wish that he might sometime drive over the Asinabaska highway. He got his wish when he was given the responsibility of driving one of their off-road vehicles along the highway. One time while in this employ, they took him to Minneapolis to hospital. He passed. He died in the north this year and was driving a car for the Canadian Pacific Co. when he was taken to his last rest.

He leaves to mourn his passing his parents, Mr. and Mrs. Gordon C. Hobson, eight sons and three daughters, also Grandpa and Grandma Hobson and Grandma and Grandma Hobson of Lloydminster.

Funeral services for the late Mr. Hobson will be held at the St. John's Church, Lloydminster, on Tuesday, April 18, at 2:00 p.m.

The Rev. Father J. J. O'Connell will officiate. Burial will be in the St. John's Cemetery, Lloydminster.

Mr. Hobson was a member of the St. John's Church, Lloydminster, and was a member of the St. John's Church, Lloydminster.

ISLAY

On Thursday afternoon April 11th the community was shocked by the sudden death of George Hobson.

George had been admitted to hospital possibly less than two hours before his death. In fact had wanted to walk up to the hospital, but as Mr. Hobson was about to go up to Mr. Hobson, George went in to see his wife and children.

George Hobson was born in Lloydminster, Jan. 2, 1918 and had lived in Lloydminster since 1931. He attended his schooling here. In 1931 he was employed by the Canadian Pacific Railway. He was a member of the U.S.A.A.F. and saw much of the north. It had been a wish that he might sometime drive over the Asinabaska highway. He got his wish when he was given the responsibility of driving one of their off-road vehicles along the highway. One time while in this employ, they took him to Minneapolis to hospital. He passed. He died in the north this year and was driving a car for the Canadian Pacific Co. when he was taken to his last rest.

He leaves to mourn his passing his parents, Mr. and Mrs. Gordon C. Hobson, eight sons and three daughters, also Grandpa and Grandma Hobson and Grandma and Grandma Hobson of Lloydminster.

Funeral services for the late Mr. Hobson will be held at the St. John's Church, Lloydminster, on Tuesday, April 18, at 2:00 p.m.

The Rev. Father J. J. O'Connell will officiate. Burial will be in the St. John's Cemetery, Lloydminster.

Stagette Notes

The regular meeting was held Tuesday, April 16th. We were happy to have a large number of members present.

John (Hodges) (Mrs. Hodges) was our guest.

We were very glad to see the girls.

Girls don't forget to be on deck for Friday afternoon to decorate the hall for the spring dance. 5 p.m. to 7 p.m. — just suit yourselves.

Let minute preparations were made for the dance which will be held on April 20. Get your tickets now (only 10¢) and don't forget your evening dress. If you have them. New prices for the spot dance.

We hope to see you all at the Tuesday night in the 25th hall.

WEDDING BELLS

ROBINSON — BUCKINGHAM

Chap and Mrs. E. H. Buckingham of Vermilion announce the marriage of their only daughter, April, to Mr. W. H. Robinson, son of Mr. W. H. Robinson, of the latter city.

The wedding took place at the latter city on Sunday, April 14th, the Rev. A. Thoms officiating.

FINLAY — OLIVER

A quiet and interesting wedding was celebrated at the home of Mr. and Mrs. George Thompson, 1188 1st Street, N.E., on Sunday, April 14th.

The bride was Miss Mary Elizabeth Finlay, daughter of Mr. and Mrs. W. H. Finlay, of the latter city.

The groom was Mr. W. H. Oliver, son of Mr. and Mrs. W. H. Oliver, of the latter city.

The wedding was officiated by the Rev. A. Thoms.

The bride and groom were accompanied by their parents and other relatives.

FLAX BRINGS \$15,000,000.00 TO WEST FARMERS

The Western Canada flax crop produced a record revenue of \$15,000,000.00 last year, according to a recent survey. The figure is impressive in showing that flax is not only a profitable crop but also one that can be grown in the prairie provinces with the same results as in the wheat belt.

Flax is a crop that has been grown in the prairie provinces for many years. It is a crop that is well adapted to the soil and climate of the prairie provinces. It is a crop that is well adapted to the soil and climate of the prairie provinces.

WEDDING BELLS

TAYLOR-LARSEN

At a quiet wedding ceremony performed by Rev. Larsen in Calgary on April 19 at 3 p.m., Miss Betty Taylor, daughter of Mr. and Mrs. Walter Taylor of Calgary, was united in marriage to Mr. and Mrs. Walter Taylor of Calgary.

The bride was accompanied by her bridesmaid, Miss Betty Taylor, and the groom by his best man, Mr. Walter Taylor.

The ceremony was held at the home of the bride's parents, Mr. and Mrs. Walter Taylor, in Calgary.

The wedding was a private affair, with only close friends and family members in attendance.

The bride wore a beautiful white gown, and the groom wore a dark suit.

The reception was held at the home of the bride's parents, and a large number of guests were present.

The wedding was a most successful one, and all guests enjoyed the celebration.

The bride and groom are now residing in Calgary.

\$200 Baseball Tourney To Feature May 24th Sports

Vermilion's May 24th celebration will mark a revival of athletic sports, which were allowed to die during the war years. Featuring a great sports program, the annual baseball tourney will be held on May 24th, at the home of the town's sportsmen.

The tourney is sponsored by the Vermilion Amateur Athletic Association, and will feature a variety of sports, including baseball, basketball, and football.

The tourney is open to all teams, and will be held at the home of the town's sportsmen.

Fish & Game League Activities Outlined By The President

Drive for Membership Under Way

The following outline of the activities and achievements of the Vermilion branch of the Alberta Fish and Game Association is given by the president, Claude N. Brown. The statement is as follows:

As the annual membership drive at the Vermilion branch of the Alberta Fish and Game Association is now underway, I would like to briefly outline to the members of the league the activities of the branch during the past year and our progress for 1946.

During 1945 Vermilion held second place in the league for the collection of eggs and maggots and eggs. The total collected was 1124 eggs and maggots. This was a record for the branch and it was the first time that we had collected more than 1000 eggs and maggots. This was a record for the branch and it was the first time that we had collected more than 1000 eggs and maggots.

Last year we received two ship models of pleasure yachts a work of art. The first shipment of birds arrived in very poor condition but the second lot of 40 were in excellent shape and were returned next of day. This year we have been advised that our work will be around 125 risks and arrangements have been made for the collection of eggs and maggots. Chateaufort Chatter

Heavy the news didn't hit in time for last week's publication but our staff was broken down by the flu on Tuesday. Our chakra to Peter Tuckwell who posted the Chatter on Wednesday.

Peter Tuckwell has been bringing us the latest news and we expect to see him in the office soon.

The country is looking very green and beautiful, though heavy rain at last week's week caused some damage to the crops. The weather is now in the hands of the weather gods.

It seems to be completed in this district.

GARDEN NOTES

Spread Out Seedlings

Perhaps the two commonest mistakes of the average gardener, especially in the case of seedlings, are planting too many in one place and planting too early in the season. The first mistake is to plant too many in one place. The second mistake is to plant too early in the season.

WEDDING BELLS

The Rev. John O'Brien, O.S.B.

will officiate at the marriage of their daughter
Miss Edith Lillian Wilson,
daughter of Mr. and Mrs. W. D.
Holmes of Terrace B.C. The marriage
took place at Terrace on May 18th.

SARIN-WILSON

A pretty wedding was celebrated at St. Andrew's chapel, University
Campus, Edmonton, on Saturday May
18th at 4 o'clock in the afternoon
when Miss Edith Lillian Wilson,
eldest daughter of Mr. and Mrs. W. D.
Holmes of Terrace B.C. was united in
marriage to Mr. Arthur A. Sarin, son
of Mr. and Mrs. A. Sarin of Edmonton.
The bride was escorted by her sister,
Miss Edith Lillian Wilson, who was
carried a bouquet of red roses and
lilies. The bridesmaids were Miss
Dorothy Wilson, sister of the bride,
and a dress of mauve silver with a
bouquet of pink roses and white
carnations with lilies.

The best man was Mr. John Thibeau
of Edmonton.

Following the ceremony a buffet
dinner was served at Madame Dyer's
and attended by thirty guests in all.
The parents and families of both the
bride and groom were present and
the wedding and reception, and
other guests came from Calgary and
Edmonton.

The happy couple left for a honeymoon
trip to Vancouver and other
Pacific coast points.

Seeds of Strife

For more than a generation Alberta farmers have patiently and patiently built up their own marketing organizations to protect themselves and better their economic position. These farm organizations have been built on a basis of service rather than profit.

The Income Tax Payor's Association has been conducting an intensive, widespread and expensive propaganda campaign to lead the Canadian government to impose federal corporation tax on the use of any rural Canadian business. This is a real and serious threat to the future of the Alberta farmer.

The purpose of the campaign is to effectively cripple the organizations as well as other enterprises built up by the people for their own use.

The underlined Alberta farm organizations are hereby requested to the Canadian farmers. Supported by the authority of the Alberta Farmers' Union, the Income Tax Payor's Association is hereby requested to the Canadian farmers.

Alberta farmers have in the past produced products of millions of dollars worth of goods. The bulk of this has been shipped off to central Canada (Ontario and Quebec). These two wealthy provinces contribute 71 per cent of all taxes collected by the federal government.

It is this fact that Ontario and Quebec corporations will be the beneficiaries if farm corporations are made subject to federal corporation taxes. Individual tax payers will benefit little, if any.

Business interests cannot afford to ignore in a life-and-death struggle with the farm people of Alberta. Business people have everything to lose and nothing to gain in dealing with farmers who are being taxed on a basis of their production.

When the Income Tax Payor's Association is asked to support the Income Tax Payor's Association, it is asked to support the Income Tax Payor's Association.

PRISON REFORM

Crime Incentive, But The Royal Commission Report

To get a clear picture of the crime situation in Canada it is not enough to look at the statistics.

You will find the following figures, which are official, and which are based on the statistics of the year 1945.

Well, take a good look at them. First, the growth in non-violent crime, which is most common.

The statistics for the year 1945 show that the number of non-violent crimes was 1,000,000, compared with 900,000 in 1944.

More than 100,000 were sentenced to prison for anything up to two years.

Silver Wedding Of Interest at Deer Lake

The Deer Lake school was the scene of a very memorable wedding on Saturday May 26th, the occasion being the silver wedding anniversary of Mr. and Mrs. John Reid. The happy couple came from Portland in the year 1926 and have resided in the Deer Lake district since 1932.

The wedding was spent at a party at the home of Mr. and Mrs. Reid, the bride and groom being assisted by the bridesmaids, Misses Mary and Helen Reid, and the groomsmen, Messrs. John and William Reid. The bride wore a white tulle gown and carried a bouquet of white flowers. The groom wore a dark suit and a white shirt with a red tie.

Shower for Bride-Elect

A very enjoyable evening was spent last Thursday when a friends and relatives of the bride-elect gathered at the Watson school to shower Miss Margaret Wilson, a bride-elect.

Miss J. Wooding and Miss C. G. G. were the hostesses. The evening was spent in a most enjoyable manner with singing, dancing and a very merry and successful party.

Mrs. Henry Powell Welcomed to Vermilion

Complimenting Mrs. Henry Powell, formerly of Liverpool, England, who arrived in Vermilion recently, Mrs. Powell is now residing at the home of her daughter, Mrs. J. H. Powell, at the corner of Main and 10th streets.

Death and Funeral Of Loyal Pioneer

EDWIN COOPER, an old time of the Loyal district, died on Thursday, May 23, at the age of 72 years. He was born in England and came to Canada in 1880. He was a member of the Loyal district and was well known in the community.

Claymore Clippings

Mr. and Mrs. L. McCree visited at the home of Mr. and Mrs. C. Galloway Sunday evening.

Miss Esther Chapman spent a few days with her mother, Mrs. C. Chapman last week end.

A Van Ness spent several days at a point in the Manitowish house. It is now home feeling quite well.

Part of the Claymore telephone line is being moved from the H. Williams corner south to the corner at J. Jewell's, west to Main to P. W. Hill's corner and then north to J. A. Williams. This will effect an improvement as it accommodates 6 more subscribers to the line.

A. Harrison is in charge of moving the posts and quite a number of neighbors have volunteered to help dig the holes.

Mrs. H. Williamson had a surprise visit from her brother A. Strong of Winnipeg recently. Mr. Strong was on his way to Vancouver and stopped over between trains. It was the first time he had been in the city since he was a boy.

Mr. and Mrs. R. Macmillan and Mr. and Mrs. Van Ness were Sunday evening visitors at the home of Mr. and Mrs. L. McCree last Wednesday afternoon.

Death of Mrs. Harold Wilson

Edith Wilson, beloved wife of Mr. Harold Wilson, passed away suddenly at the Vermilion Memorial Hospital on Wednesday afternoon, May 23, following a short illness. She was 62 years of age.

Funeral services will be held on Sunday afternoon, June 3rd at 2:30 p.m. at the Central hall. The interment will take place in the Vermilion cemetery.

HOW GOOD A DRIVER ARE YOU?
Check Yourself!

DO YOU ALWAYS—
1. Signal before turning or before changing to a speed?
2. Come to a full stop at a stop sign?
3. Obey traffic lights?
4. Give the pedestrian a chance even though he may not have the right of way?
5. Refuse to drive before drinking or while drugged?
6. Know and observe the rules of the road in your community?
7. Drive with extra caution in fog, rain, snow and on wet roads?
8. Keep alert when driving?
9. Drive within the speed limit?
It's your future driving that counts. Be a good driver — keep out of trouble — prevent accidents.

CALGARY GIRL WILL BE 'MISS CANADA' AT RODEO—Patsy Rogers is to be Miss Canada at the year's famed rodeo which is to appear at the New York state fair during the month of July.

The daughter of a pioneer family was born in Calgary 21 years ago and spent her childhood in the foothills of the Rockies. Patsy's mother was a fine old-time Hamilton family, who were in the rodeo business.

Her father, who was a rodeo rider, followed the cowboy trail to the West.

HORNED CATTLE
Percentage is increasing in the Four Western Provinces

All good cattlemen know that horns on commercial cattle are just a source of danger and loss in the handling and shipping of such cattle, but are an actual danger to the handlers.

The agricultural press have illustrations showing the terrible losses in beef and cow carcasses caused by horns.

Lola R. Willmer
Is June Bride
Marriage of Lola Ruth Willmer, daughter of Mr. and Mrs. W. H. Willmer, of Denver, Alta., to Mr. Fred A. Hadley, son of Mr. and Mrs. Hadley, of Calgary, Alta., took place on Wednesday, June 13, at 6:30 p.m. in the First Presbyterian Church, 25th Street, Vermilion. The bride, wearing a gown of white tulle, was escorted by her father, Mr. W. H. Willmer. The groom, in a tuxedo, was escorted by his best man, Mr. Fred A. Hadley. The ceremony was performed by Rev. J. W. Morrison. The bride and groom were surrounded by a large number of guests. The reception was held at the home of the bride's parents. The happy couple will reside in Calgary.

ILLER-WATY
A quiet wedding took place on Wednesday June 13, at 2 o'clock in the afternoon at the United Church, where Miss Jean Marrella, daughter of Mr. and Mrs. E. W. Marrella, of Calgary, was united in marriage to Gerald Edward Miller, son of Mr. and Mrs. E. W. Miller, of Hamilton, Ontario. The Rev. E. B. Smith officiated.

WEDDING BELLS
JOHNSON-YOUNG
A quiet but pretty wedding was celebrated last Thursday in the Lands Building, Edmonton, when Miss Marjorie Young, daughter of Mr. and Mrs. C. Young of Hintonville, became the bride of Mr. Lloyd Johnson of Hintonville. The bride was charming in a gown of white tulle, and the groom was in a tuxedo. The ceremony was performed by Rev. J. W. Morrison. The bride and groom were surrounded by a large number of guests. The reception was held at the home of the bride's parents. The happy couple will reside in Hintonville.

MISS JENNIE CORRIE
Miss Jennie Corrie of the Edmonton public school teaching staff was a guest of Miss A. Macpherson over the week end.

MISS JEAN ARMED
Miss Jean Armed and little grand-nephew, Brian Christmas, plan to leave Friday of this week to visit at Calgary and Hintonville.

According to the University
way, Miss Jean Armed was successful in completing her second year of the Bachelor of Education degree work at the University of Alberta.

MISS HELEN LUTHER
Miss Helen Luther of Edmonton spent the holiday week and visiting in Vermilion, a move at the home of Miss Doris Lipp, who is a former member of the local post school staff.

Mr. and Mrs. Gordon Ross
and little son, Murray, spent the holiday week in Vermilion.

City Man Blind, Deaf — But Happy

(Vancouver News-Herald)

Stanley means little to the hapless of Charles Crane.

A devotee to the convention of the Western Canada Association for the Deaf in Hotel Vancouver, he is blind as well as deaf, but he doesn't let it worry him.

Placed in sign language, he hears the conversation and when through the sign language he has learned to read lips, he has learned to read lips.

But he doesn't let it worry him. He is a happy man. He is a happy man. He is a happy man.

He is a happy man. He is a happy man. He is a happy man.

He is a happy man. He is a happy man. He is a happy man.

TO PRARE FARMERS

You have read and heard all the arguments in favour of the proposed Canadian-British wheat agreement. Now, in all respect, we ask you to consider the arguments against it. . . and, as far as you are concerned, your own conclusions as to whether any such deal will be to your advantage or not.

The members of the Winnipeg Grain Exchange are vigorously opposed to the proposed deal. They believe that the agreement with Great Britain, for that matter with any other nation, here are the reasons why:

In November, 1945, the Winnipeg Grain Exchange said that it would make a bilateral agreement of any kind with any nation. This is what the "Winnipeg Free Press" said editorially on June 19th, 1946, that the wheat agreement was being discussed:

"For Canada, all countries, to break away from the market economy, and to working an immediate advantage, to ignore the greater good, to shade her pledged word, and to prejudice the most helpful movement of modern times, (i.e., for free international trade) would be little less than an act of treason."

A wheat agreement with Britain would practically close Canada's other export markets for wheat. True, Britain is our best single customer for wheat. But not the only customer. Even if the British were willing to buy all of our wheat, we would still be selling to the rest of the world. The entire British consumption could not begin to use up our surplus of wheat and keep our farmers prosperous.

Here are figures that prove this statement:

In the thirteen years immediately preceding the war, Canada's wheat exports were distributed as follows:

TO UNITED KINGDOM	TO CONTINENTAL EUROPE
36%	64%
TO THE OTHER COUNTRIES	TO THE OTHER COUNTRIES
5%	10%

In the light of these figures, do you think that Prairie Farmers or Canada itself can afford to antagonize 64% of our world wide wheat buyers? These customers are distributed over more than sixty different countries. In normal times, we must depend upon them to buy our wheat. Where else could it possibly be sold?

If this wheat deal goes through every one of these countries will be antagonized. They will buy from other countries not only their wheat but all other foods that compete with wheat in world trade, such as corn, potatoes, soy beans, etc. Would you like to see your wheat market closed?

How then can Canada afford to ignore big buyers of wheat in Continental Europe, the Orient and elsewhere? The "Winnipeg Free Press" made this clear in an editorial on June 20th, 1946:

"The result of any such wheat agreement would be to narrow the range of our markets and make our future in wheat dependent largely upon few, not many, buyers. For an immediate advantage to be gained, we must sacrifice our future security. When the contract is up, who will be in the driver's seat?"

"Canada's grain, being a long haul, the harvest would be curtailed. British has decided a market based on Canada's privileged position, the inland prairie (other wheat exporting countries) would be shut out of their wheat against the day when the western market. What then would happen to prairie?"

The terms of trade, this wheat agreement would be a destruction of war, not co-operation. It is

unreasonable that such a policy should be taken on the basis of the argument that Britain is our best customer. There must be flexibility in the marketing of wheat to cover variations in quantity and quality of production, not alone in Canada but in all other wheat producing, consuming and exporting countries. Wheat must also be sold at prices to compete with wheat of other countries that are available in world markets.

This fluctuation in prices should keep pace with the cost of the goods that farmers have to buy. You know, clothing, lumber and other things. Why, then, should you be held down to a fixed price for your wheat. Such a policy is neither fair nor reasonable.

Any promise of a future reward for your present sacrifice cannot possibly be fulfilled, although those in favour of the wheat agreement would have you believe that it can.

No wheat importing country will, for long, pay more for Canadian wheat (quality considered) than the price at which it could obtain wheat from other countries willing to sell their wheat. Would you, if you were an importer?

During the crop year 1945-1946 Prairie Farmers sold 138 million dollars because of the present "controlled" price for wheat. Do you expect to receive your share of that loss?

The truth is that if this proposed agreement is signed the "control" of your wheat will continue; and you will possibly face still further losses. And to whom will you look to make up for these losses?—Canada?—Britain?

The agreement will mean monopoly control of grain production. You, as farmers, will be told what you must grow and how many acres you may use. And you will have no say as to how, when, where and at what price your crop will be sold. Your wheat market will be both buyer and seller. You will have no say in the matter. How will you like that?

You have been guaranteed a floor price of \$1.00 per bushel for four years, but not necessarily for your whole crop. The Government floor price announcement states specifically that delivery control may be necessary.

Commenting on the dangers of monopoly, the "Winnipeg Free Press" on June 25 said:

"The market has been made up of another 80% consequences of bilateral trade in wheat. The open market would disappear in favour of a state monopoly. There are differences of view about the open market, but nobody of consequence is advocating a state monopoly as the alternative."

Over and above all other objections, we oppose the agreement in national policy as a wheat agreement implies. The Government has no mandate from the people to embark upon a program of State Socialism.

THE QUESTION MUST BE ANSWERED
ON WHAT BASIS?

Does Canada intend to permit the continuance of free competitive enterprise in wheat or anything else?—does Canada intend officially to embark upon a policy of State Socialism?

If free competitive enterprise is to continue then Canada cannot afford to make bilateral trade agreements.

If State Socialism is the objective of the sponsors of the bilateral wheat agreement they should come right out frankly and say so, and not lead Canadians to believe that their liberty and their freedom of action are not threatened when the very opposite is the case.

A Pattern for Peace

FOR MANY YEARS the undisturbed border between Canada and the United States has stood as an example to the world of the manner in which nations can live peacefully side by side. In both here the will to do so has been a hard-won peace has passed since there has any grave dispute between these two countries and at this time the possibility of serious trouble arising between them is extremely remote.

Mr. John R. Head of Ottawa, one of the officers of the new World Court of the United Nations, and formerly Canadian representative on the International Joint Commission, who returned from the United States last week, stated that the most important contribution to the working of the new world court was the complete co-operation in establishing it, no matter which nation was most vitally concerned. Had Western Europe been similarly united before 1918, the history of the last seven years might have been quite different.

It is gratifying to know that such a precedent has been set here, and it is to be hoped that it may contribute to the working out of a plan for permanent world peace.

An Example Set For Others

What has been accomplished here should not be imitable for all nations. It must be acknowledged that there are certain extremely favorable factors involved in the relationship between the United States and Canada. There is a common language in both countries and the two nations are geographically adjacent. There are, however, members of the American Republic and the war of 1917, both of which are an aid to the past as to be completely forgotten. From these, very little, if any, bitterness has remained. At this time, when institutions of the past must be discarded, the fact that the United States and Canada have been able to do so is a most important contribution to the working of the new world court.

It is gratifying to know that such a precedent has been set here, and it is to be hoped that it may contribute to the working out of a plan for permanent world peace.

May Sign Jap Peace Treaty

NEXT Spring

TOKYO — Allied occupation of Japan has developed to an unexpected point that a final peace treaty may be signed next spring, according to the occupation estimates of from five to 10 years initially expected.

The chief reason for the delay is the signature of a final peace treaty in the presence of all Allied countries, and the need for the question of reparations.

Supreme Headquarters has not yet decided what reparations questions will be and it was believed that the differences of opinion with Russia on this point would delay the signing of a final peace treaty to sign an early Japanese peace treaty.

It was said here that reparations would be a problem. The Japanese could not afford to pay, but the Allies could not be signed peace treaty without the Japanese.

It was said after the July 26 anniversary of the Japanese surrender that it would mean the peace treaty.

MINIAL FROM CHINA

WASHINGTON (UPI)—The Chinese government demanded that the United Nations Relief and Rehabilitation Administration resume suspended shipments to China, and in a sharply worded statement it implicitly barred UNRRA itself for "not doing its job."

The UNRRA office in Chungking said the Laogaiung UNRRA director announced suspension of relief shipments two weeks ago, attributing the move to the Japanese occupation of Japan might be settled much more rapidly than originally supposed in some quarters. It was thought a time limit on the occupation might even be set before the end of this year.

Allied officers were said to believe generally that the bulk of the occupation forces should be withdrawn as soon as feasible. They believe the difficulties of any military occupa-

length of the force's stay in the occupied land.

They point out that there has been no indication of any extensive effort by the Japanese ultra-Nationalists to re-establish themselves and that the Japanese have shown great willingness to accept the fact of their defeat and seem to be interested in

establishing themselves as a nation worthy of international respect.

THE VETO QUESTION

Russia Definitely Holds Opinion It Should Not Be Changed

NEW YORK. -- Russia holds the

the veto in the United Nations security council should stand unchanged, it was reliably reported in Soviet circles.

Thus was the first Russian reaction on the veto question since Dr. Herbert V. Evatt, Australian foreign minister, attacked the veto in a re-

Dr. Khalil, known as foe of the veto, then formally requested the UN secretary-general to place the question on the agenda of the UN general assembly meeting beginning Sept. 22.

speeches are made on it in general assembly debate or however it is attacked

These motives emphasized that Russia feels the unanimity of the big powers is too important, that there should be nothing to minimize the importance of the United Nations charter as it now stands

MEAT FROM CANADA

Supply Went This Year To Hunger Zones Totals 20,154,700 Pounds

OTTAWA (AP) - Figures released by

in the week ending July 13, 2,460,384 pounds of canned meat were shipped to UNRRA authorities for distribution in the hunger zones. Of this consignment 1,979,516 pounds were consigned to Austria and the remaining 480,868 pounds to Italy.

This latest consignment brings to a grand total of 22,156,706 pounds

the amount of canned meat purchased and shipped overseas by the board since Jan. 1, 1946. The greater part of the shipments was destined for the relief of famine countries under UNRRA supervision but during the past 12 months also received \$3,000,000 pounds and Belgium 1,200,000 of the canned meat supplies.

FINE CONTRIBUTION
MONTREAL De A Stewart Allen, who arrived in Montreal by plane after four months in China where he examined the administration of the Canadian Chinese War Relief Fund and established the fund committee at Shanghai, termed the contribution

GRANTED CREDIT
WASHINGTON The Netherlands East Indies was granted a United States credit of \$100,000,000 to purchase United States army and navy surplus property. The agreement

promised for repayment in fifteen years at an interest rate of 3 1/2%.

Madelon Atkinson Married at Victoria

Madelon Atkinson, wife daughter of Mr. and Mrs. Frank Atkinson, 5429 Victoria Avenue, Victoria, formerly of Vermilion, Alta., exchanged wedding vows Saturday evening in St. Mark's church with Clifford George Pepper, son of Mr. and Mrs. C. J. Pepper, 2511 Victoria Avenue.

The bride, in marriage by her father, wore a water flower length lace, trimmed with silk, long sleeves and double row skirt. Her veil was of the style of the gown from a Mary Stuart headpiece and she wore a shower bouquet of roses, white carnations and white lilies.

The bride's only jewelry was a double strand of pearls, the gift of the groom, and a diamond necklace, engagement ring and earrings.

Miss Atkinson attended her sister's wedding at a house of equivalent with a matching shoulder-length veil and Mrs. Margaret Pepper, the sister of the bride, wore a pale pink dress with a matching shoulder-length veil and Mrs. Margaret Pepper, the sister of the bride, wore a pale pink dress with a matching shoulder-length veil.

The bride's only jewelry was a double strand of pearls, the gift of the groom, and a diamond necklace, engagement ring and earrings.

Woman With No Experience Starts Farm in B.C.

VANCOUVER.—Mrs. Elmer Glasgow, slim, dark-haired and dynamic with no previous agricultural background, bought a farm.

But that was six years ago, and now, what had started out as one farm, has grown to a corporation of three—Fairmeade Farms Ltd., and occupies 350 acres in nearby Langley.

Today, she spends six months of the year on the farm, of which she is president, and most of her week ends the rest of the year. She has 200 head of the finest cattle in the district noted for Ma line cattle, a herd which boasts 175 championships.

The old farm house which used to stand on the property, has disappeared in favor of a modern home complete with swimming pool.

But it wasn't enough to breed championship cattle. Mrs. Glendon

Outmoded Now

A generation ago the parlor organ was a treasured part of the family and no family was complete until the organ was acquired, often with considerable sacrifice and hard work. It brought happiness into the home and also a certain social status for which nothing else had just the same standing. On a cold Winter's night or on a Sunday afternoon or evening mother or sister would sit at the organ and play all the old favorite

It may not have been the greatest music we hear on the radios of today, but the family sang the old folk songs, beloved Christmas carols, the tender hymns and here was Home Sweet Home and everything was everyone seemed safe and secure. The radio typically represents modern living, the old parlor organ some-

Changing Fire Colors

the more oxygen supplied, the more brightly and rapidly will the fire burn. If there is an excess of oxygen, a great deal of carbon monoxide is formed, and this burns with the blue flame so often seen in stoves burning fire.

It must be remembered that different substances and gases have their own color when burning, and can contain, besides carbon, various minerals substances and several gases, all of which affect the color of the fire in some way.

In early England coins sometimes were cut in halves or quarters to make change.

Non-Delivery Strike by Farmers in Progress

Quint and Ordery Here - Economy and Economy Picked.
 The non-delivery strike of the Alberta Farmers Union is now in progress in Alberta, and while a few farmers have been reported from some points, all has remained quiet and orderly here with the strike delivery apparently in good hands.
 Pickets are on duty at the creamery and elevators but non-delivery farmers are not cooperating in the non-delivery and no attempt has been made to market grain or livestock to great time. A few cars of grain were brought in yesterday but in each case the driver stated that the strike had been called. Delivery of this

Soil Conservation

SOIL CONSERVATION is a very important factor in the development of a country for many years. Members of the general public have long been conscious of the importance of the problem related to soil erosion, but it is doubtful if the majority of them have realized how serious is the need for prompt and efficient action in combating it. Recent surveys have shown that the average of "bad lands" in the country is about 10 per cent of the total area, and in some cases it is as high as 20 per cent. This is a very serious situation, and it is the duty of every citizen to take steps to prevent it.

It is common to see a hillside that has been eroded, and the soil has been washed away. This is a very serious situation, and it is the duty of every citizen to take steps to prevent it. The problem is not only one of soil erosion, but also of water conservation. The water that is lost through erosion is a valuable resource, and it is the duty of every citizen to take steps to conserve it.

MODERATION

promises a glorious future

Because we are a moderate people, Canada has come through the war with perhaps the least dislocation of any nation actively involved. That is a remarkable tribute both to the overall policies of our Government and to the fundamental wisdom of the Canadian people.

And it holds out a glorious promise for the future.

But to make that promise come true in the days ahead we shall have to continue to live up to our principle of moderation. We shall have to continue to think, act and live—moderately.

To give in to the natural desire for immediate enjoyment of everything and anything presently in short supply can result only in inflation and disaster.

This is not our way.

The House of Seagram suggests that each day's enjoyment be moderate so that the rich promise of Canada's tomorrow can be fulfilled — to the full.

To Deal With Question Of Tax Relations

OTTAWA.—Some provincial legislatures may call attention to deal with the question of tax relations with the federal government in the light of developments since the Dominion-provincial conference in 1945.

Manitoba has already indicated that it will call a full session to deal with a new agreement with the federal government on the subject of tax relations.

Should other provinces not open such negotiations now they may call full sessions to make arrangements necessary for the operation of tax relations which is in evidence when the wartime agreement was made.

With the expiry date of the wartime agreement approaching from the end of next month to the end of next March, it is believed that all provinces will soon make their position known so they can go forward with their respective legislation for the coming fiscal year.

Provincial legislatures have indicated that the possibilities of a new Dominion-provincial conference are remote unless the provinces get together with a very definite program for their legislation, the form of legislation which they would like to see enacted.

Possibility of the provinces agreeing to any of the proposals for extension to the Dominion also has been a subject of discussion.

What the provinces now want is the federal offer to go forward in the future with the Dominion suggested that the provinces agree to undertake an extension of themselves and their municipalities to the province.

The agreement would be paid for by the provinces in the form of a uniform five per cent tax on the income of the provinces.

Miss Patry Burns

Married at Edmonton

First Presbyterian church, Edmonton was the scene of an attractive wedding ceremony evening, 13th inst. Miss Patry Burns, daughter of Mr. and Mrs. J. M. Burns, of Vermilion, was united in marriage with Mr. J. M. Burns, son of Mr. and Mrs. J. M. Burns, of Vermilion, at the home of Mr. and Mrs. J. M. Burns, of Vermilion.

Following the church with her father, who was her best man, the bride was a twofold afternoon ceremony at the home of her parents, but was in chocolate brown, and was with a better taste at each side, and her only jewelry was a simple pendant, a gift of the groom. The bride wore a simple, elegant, white gown, and white shoes.

Miss Burns, who was the bride's only attendant, came in a turquoise dress, fresh with a small hat of pink checked fabric. She wore white gloves and a corsage of white roses.

Best man was Mr. Frank Francis, and the brides were Mr. Frank Francis and Mrs. Burns. The brides were Mr. Frank Francis and Mrs. Burns. The brides were Mr. Frank Francis and Mrs. Burns.

WOODVILLE

Just after our last news report was sent, we heard that Woody from Woodville had fallen while climbing the rafters in the barn and broken his arm. We tried to learn that he was in such a bad state, though his arm is still in a cast.

He had weathered his usual experience around the week end and the snow flattened the late state and the road found a great extent. There is to be held up for a while though considerable progress was made the week before, in fact the highway has been closed to the north of the town.

NEW TEENIES AT PLAYBOYBOY

The Playmate magazine has recently
had its first issue. It is a new
and popular. There are now
two issues each month. It is
interesting and popular.

Chatsworth Chatter

The members of Saturday night
have been talking and all have
been very busy. We were able to
overcome by Monday and
certainly have had a very
successful week. We were able to
sell a lot of goods and have
been very busy.

Police are getting their
patrols in after the "spice
of the week".

Jim Thompson underwent an
operation for appendicitis on Tuesday
last. He is now in the hospital
and is feeling fine. He is
expected to be home in a few
days.

A new fire has been held at
the school—certainly proved a
big success. The children have
been very busy.

Mr. and Mrs. Pete Kuschner

ETHELWYN

With weather and when will the traveling set down are the main topics of conversation these days. The old saying "don't cry for the spilt milk" is still very apt. It is hoped that much good will result. The women are very appreciative of the help and cooperation extended by the men and women people of the town. It is hoped that much good will result. Local News of Interest

Miss Maude Whyburn and Mr. John Laidlaw both of Edmonton have been that city on Saturday afternoon and spent the Thanksgiving week and Miss Laidlaw stayed at the home of her parents. The return flight was made Monday night in spite of the clearest weather. The service offered by the airport was greatly appreciated, as was also the cooperation of a volunteer in providing transportation to and from the airport.

Mr. and Mrs. Claude Smith and their daughter Rose of Edmonton spent the week end at home in Vermilion. Mr. and Mrs. W. H. Brown.

Miss Dorothy P. McKay of Edmonton and a graduate of the Vermilion high school passed the water conducted in September by the University of Alberta, on behalf of the Alberta Association of Registered Nurses, and will be recommended for a certificate enabling her to become a registered nurse. Dorothy passed with outstanding marks in her studies. She is a member of the Sigma Kappa Sorority.

Local Leader Named

The Mutual Life of Canada has re-elected to its Board of Directors, Mr. S. C. Heckbert, of Vermilion, for the year ending Dec. 31, 1946.

Mr. Heckbert was re-elected to the Board of Directors of the Mutual Life of Canada. He has been a member of the Board since 1938.

Wilderness Winks

On Thursday evening a large crowd of on-lookers and friends gathered on the road for a farewell party to Mr. and Mrs. Heckbert as they left for their journey back to the city.

The party was held at the home of Mr. and Mrs. Heckbert. It was a very successful and enjoyable affair.

SALES MUCH HIGHER

Canadian Spent More of Wartime Savings During August This Year

Thirty households who saved their pin money during the war spent a lot of it last August on radios and household goods, a report by the Dominion Bureau of Statistics has disclosed.

An analysis of department store sales in Canada during that month showed a 24 per cent. rise over July, and a 27 per cent. increase compared with the corresponding month last year.

Radio, musical instruments and supplies led off departments with an increase of 386 per cent. over August, 1945. Sales of household appliances and electrical supplies were up 95 per cent. higher; hardware and kitchen utensils, 58 per cent.; furniture and home furnishings, 54.2 per cent. and 52 per cent., respectively.

Rural households, too, went shopping during August, the report showed. However, those in Western Canada spent more money than the Easterners.

In country general stores the margin of increase in sales was somewhat wider in Western than in Eastern Canada. In Saskatchewan the increase was 148 per cent. higher; in Alberta, 100 per cent. and in Manitoba, 50 per cent.

Reles in Ontario's country general stores were 28 per cent. higher; Quebec and the Maritime Provinces posted gains of 14 and 15 per cent., respectively.

London's Underground

Historic Building

Home in London Where Marshall Lived in Exile

Londoners like to think their underground railway system one of the most modern in the world. But the system of war and the early 1940s was a different story.

Now the system that exists about the network of underground lines beneath the metropolis and take us to the very heart of the city.

The Curran street mansion was only one of the many London mansions that have been sold since the death of his wife in 1939.
